P.B.A.WINS6% PAY RIS FOR '75 AS COURT BAR POLICE WAGE FREEZ

BEAME SAYS CITY HAS FUNDS

Cost Is Put at \$20 Million—Union Still Has to Negotiate a Pact Extends for 120 Miles

By DAMON STETSON

The Patrolmen's Benevolent Associ tion vesterday won its long court battl for a 1975 pay increase of 6 percent, c \$900 per officer, but the union still mus negotiate an agreement covering the cu rent two-year contract period.

The victory came in a 4-to-2 ruling b the State Court of Appeals that the 197. wage freeze did not apply to the disputed 1975 increase awarded by an impass panel and subsequently confirmed by State Supreme Court judgment.

The P.B.A.'s success in the courts removed one of the snags in the protracted negotiations for a new contract, which led last fall to frequent demonstrations and protests by dissatisfied police officers.

Douglas D. Weaving, president of the P.B.A., said that he was "positively delighted" by what he called a long overdue decision affirming the union's position. It means, he said, that each of the city's more than 18,000 police officers. will receive a retroactive check for \$1,129 -\$900 from the 6 percent retroactive that the break between the Governor and pay for the period from Sept. 1, 1975,

Ford Said to Plan an Aid Proposal \$800 Million Below Israeli Request

By BERNARD GWERTZMAN

As a result of this discussion, Israelis maintained that no final decision had

maintained that no final decision had been made yet by the Ford Administration. But well-placed Administration officials said that unless Mr. Ford changed his mind the decision had been made. The issue has more than economic consequences for the Israelis. Because of the moves taken by Prime Minister Yitzhak Rabin to call for early parliamentary elections, the size of the American aid package to Israel will inevitably have an impact on the Israeli political scene, Israelis and American officials said. and American officials said.

Little Concern So Far in Congress

Word of Mr. Ford's decision to propose the \$1.5 billion figure recommended by the Office of Management and Budget has been circulating quietly in Washing-ton but so far it has not aroused very much concern among supporters of Israel

on Capitol Hill.

Several of them said today that if the Israeli appeal to Mr. Ford failed, the matter would be raised with Jimmy Carter as soon as he becomes President on Jan.

20. The hope is that in his amended budger travers the sid figure for Israel will be in military credits, half of which would not have to be repaid.

The Israelis and the State Department argued against that low recommendation, but according to Administration officials. et request the aid figure for Israel will

The aid total for Israel has been a controversial item for several years. In part because of Israel's eventual

WASHINGTON, Dec. 22—Administration officials said today that President Ford had decided to propose a \$1.5 billion foreign aid package for Israel in the next fiscal year—\$800 million less than Israel requested and \$300 million less than the State Department recommended.

The President's action, taken before he departed for Vail, Col., on Saturday, has caused concern among Israelis and they have requested that Mr. Ford reconsider his action before he submits his final budget message to Congress next month. Ambassador Simcha Dinitz of Israel raised the issue with Secretary of State Henry A. Kissinger this morning and reportedly was told that the Issue would again be reviewed within the Administration. that ended last June 30.

Of that total, \$1.5 billion was for military credits, half of which do not have to be repaid, and the rest for economic aid. This was the largest aid request ever made for a single country in one year.

For the fiscal year that ends next Sept. 30, the Ford Administration proposed only \$1.8 billion, of which \$1 billion was in military credits. This \$500 million "ont" upset Israel's supporters, who tried to restore it by seeking \$500 million for the three-month period between June 30 and Oct. 1, when the Government went through a transition from an old July-to-July fiscal year to a new October-to-October one.

Originally, Mr. Ford opposed any additional money for Israel during the transitional quarter, but he eventually bowed to political pressure and approved a \$300

\$2.3 Billion Sought by Israel

When planning began a few months ago for aid in the 1978 fiscal year, Israel submitted a request for \$2.3 billion, similar to the peak level of the 1976 fiscal year. Of that total, \$1.5 billion would be for military credits.

The State Department, however, recommended only \$1.8 billion, the same as for the 1977 fiscal year.

The Office of Management and Budget

The Office of Management and Budget argued that since Israel had not really been entitled to the \$300 million additional for the transitional quarter, the total should be cut to \$1.5 billion. Of this, \$1

figure.

The whole matter is viewed here as potentially embarrassing to Prime Minister Rabin, who would like to visit Washington early in the Carter administration. willingness to negotiate a second interim But it is uncertain when he may be asked agreement on Sinai with Egypt in Septoceme because of the election campaign.

U.S. Uncovers Iraqi Gun Purchase

Special to The New York Three tion officials said today that Iraq, winch does not have diplomatic relations with Department of the Treasury. does not have diplomatic relations with the United States, had arranged for the purchase of 100 submachine guns from an American concern and had managed

to smuggle 30 of them out of the country through its mission at the United The 70 others have been recovered, the officials said, after diplomatic interthe officials said, after diplomatic mer-vention last week by Albert W. Sherer, deputy United States representative at the United Nations, with the Iraqi chief delegate, Abdul Karim al-Shaikhly.

According to American officials at the United Nations, the purchase had apparently been arranged by Iraqi secret agents without Mr. Shaikhly's knowledge. The discovery of the purchase was

U.N. General Assembly Ends Session for 1976; May Resume Next Year

UNITED NATIONS, N. Y., Dec. 22 (UPI)

—The General Assembly ended deliberations for the year tonight with a warning
from its Third World President that economic inequalities are as much a menace to global order as political conflicts.

The Assembly also heard a pledge from the chief United States delegate, William W. Scranton, that America "will try with our hearts and our minds to work for a lasting peace in the Middle East, to bring majority rule to southern Africa, to build the mechanisms necessitated by economic interdependence and to progress in arms control and disarmament."

May Reconvene Next Year

The body did not adjourn its 31st session. Instead, it declared itself in recess with the possibility of reconvening the officially announced today that they would session next year to assess results of the observe a three-day Christmas cease-fire ministerial meeting in Paris of developed in Northern Ireland but warned that "the

"This is a gloomy note to strike but it must bestressed, as the solution of po-litical problems cannot by itself bring peace and justice," he said. "Economic inequalities and injustices are no less a

WASHINGTON, Dec. 22 - Administra- | made last month by agents of the Bureau

As a result, the agents were able to hold up a further shipment of 100 more of the submachine guns, designated M-10, which had been manufactured by a now defunct small-arms company. The first shipment of 100 submachine

guns was purchased from G.T. Distribu-tors in Rossville, Ga., by Antonio G. Poly-tarides, a Greek citizen who lives in Res-

tarides, a Greek citizen who lives in Reston, Va.

Officials said that Mr. Polytarides, who is under arrest in Baltimore on charges of having diverted an arms shipment overseas and of being an illegal alien, had made the purchase on behalf of Trafaloon International Corporation.

The company, which Mr. Polytarides said he headed, was registered in Delaware and early this year was licensed to do business in New York. According to the officials Mr. Polytarides, who is

to the officials, Mr. Polytarides, who is 31 years old. entered the United States

on a tourist visa.

The initial shipment was originally destined for Fargo International, a Kensington, Md., company. But on Nov. 10, according to Treasury Department records, Mr. Polytarides ordered the shipment diverted to the Iraqi mission at the United

Nations. The Treasury Department was alerted when the guns did not arrive at the Maryland destination.

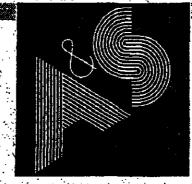

The shipment instead arrived Nov. 12 at the Iraqi mission, at 14 East 79th Street, and the receipt was signed by Shams Uddin, a driver for the mission. Some time after that, 30 of the submachine guns were sent out of the United States, American officials said.

fied support today to a British and American plan to raise a fund to smooth the transfer of power in Rhodesia to the black majority.

Among other measures, the fund would

compensate whites who decide to leave. The Canadian Secretary of State for Ex-ternal Affairs, Donald C. Jamieson, said it a news conference, however, that Canada would be reluctant to contribute to the fund, expected to exceed \$1 billion if its use were limited to the relief of white migrants.

SOVIET JEWS IN SEMINAR REMAIN IN HOUSE ARREST

MOSCOW, Dec. 22 (Renters) Most of the 13 organizers of an unofficial Jewish cultural symposium remained under house arrest today after the gathering

cnown to have been detained for questioning by the police or had their apartments searched.

Today, the sources said that although full details of the police action had not yet been collected, at least 10 members of the symposium's organizing committee were under house arrest.

The sources said plainclothes agents vere waiting in cars outside the men's houses and preventing them from leaving

man of the organizing committee, Leonid Volvovsky, was taken in for questioning today at the public prosecutor's office. He was also questioned yesterday. At the meeting yesterday, seven of an

REMEMBER THE NEEDIEST!

Aim of New Egypt-Syria Unity: Peace Talk

By HENRY TANNER Special to The New York Times

BEIRUT, Lebanon, Dec. 22—Egypt and Syria, in deciding to form a "united political leadership," are trying to make sure that their newly repaired alliance will not fall apart once more when they enter

President Anwar el-Sadat of Egypt and

President Hafez al-Assad of Syria coordinated the planning and fighting in the 1973 war against Israel but then they fell out over how to react to the step-bystep peace efforts of the United States Now; by contrast, Syria accepts the

Syrians Apprehensive of Cairo

Yet, night up to Mr. Assad's departure for Cairo for the unity talks, officials in Damascus had voiced fears that the Egyptian leader would once more "go it alone and make unwarranted concessions to the

upon joint strategy. The new body also insures consultation between the two capitals if, at one point, one governmen is negotiating for both.

"One Sinai is enough; we don't need nother," a source reflecting Syrian Govenument views said this morning. The al-lusion was to the second Sinai agreement between Egypt and Israel, which Mr. Sadat signed in the fall of 1975 against the wishes of Mr. Assad and in the final stages without consulting him.

The Sinai agreement was at the hear of a year-long quarrel between the two countries. The Syrians felt that the Sinai disengagement left Israel free to mass all its military strength against the Syrian Army. Syria's overtures to Jordan and intervention in the civil war in Lebanon

Free Hand for Syria in Lebanon

in exchange for Syria's agreement to give Egyptian diplomacy its chance once more, Egypt has given President Assad a virtually free hand in Lebanon.

The new coordination fits into the concept that Mr. Assad has been pursuing doggedly for the last two years. Syria already has a comparable "united political leadership" with King Hussein

of Jordan The next step, informed Arab analysts here and in Damascus predicted will be here and in Damascus predicted will be a combined Egyptian-Syrian move to extend their coordination to the Palestine Liberation Organization, headed by Yasir Arafat, or to a Palestinian "government in exile," which many officials here expect to be formed before negotiations at Ganage or elegibles.

Geneva or elsewhere. It is widely expected, moreover, that gotiating from for the first time. Two days ago, President Elias Sarkis was quoted by a visitor as having said, with out elaboration, "Lebanon will be at

Mr. Assad and Mr. Sadat discussed the issue of a single Arab delegation to the Geneva conference but reached no conclusion. Nevertheless, most analysts in Arab capitals are convinced that such a delegation will eventually be formed.

Syrian sources said emphatically today that Damascus still wanted a single dele-gation. Egypt's Foreign Minister, Ismail

EAST GERMANS OUST A WESTERN NEWSMAN

Accuse Television Correspondent of Meddling and Defamation

WEST BERLIN, Dec. 22-The East German Government, which has been in conflict with dissident intellectuals since it exiled the poet Wolf Biermann last month, acted today to remove another critical voice. It ordered the expulsion of a West German television correspond-ent who had frequently interviewed dissi-

The correspondent, Lothar Loewe, who The correspondent, Lothar Loewe, who had been in East Bersin for two and one half years after assignments in Washington and Moscow, was accused by A.D.N., the East German press agency, of having "meddled grossly" in East Germany's internal affairs and of having defamed its people and the Government. He was told he had 48 hours to leave.

Mr. Loewe had kent close contact with

Mr. Loewe had kept close contact with Mr. Loewe had kept close contact with East German writers who had been publicly chastised for protesting the exiling of Mr. Riermann. He was also accused, the East German agency said, of having spread "infamous slander" by saying in a recent report that East German border troops "are under strict orders to shoot at people like rabbits."

Ousters and Reprimends

preserve steps against some of East Germany's most prominent authors. Jurek
Becker and Gerhard Wolf were thrown
out of the East German Communist Party,
others received reprimands, and Me

tion of growing East German concern
over continuing close links between the
people of the two Germanys.

Neues Deutschland, the party paper,
accused Chancellor Heimut Schmidt of
seeking to interfere in East German affairs after he observed in a Government statement last week that the two Germa-nys have "special relations."

Party officials in East Berlin told a visi-tor a few days ago that the Communists have given orders to all party members to cut off links with Western relatives and friends.

in the four and a half years since the Berlin border well was opened to West-erners, West Berliners and West Germans are estimated to have paid a total of 16.5 million visits to family members on the other side, An East German official said there was no reason to fear such would be barred in the future.

Arafat Endorses State

For the Palestinians

NICOSIA, Cyprus, Dec. 22 (AP)—Yasir Arafat, the Palestinian leader, said today the the Palestinian movement would set up a state on "any piece of liberated Palestinian soil," according to the radio of Saudi Arabia.

Mr. Arafat's comment was interpreted as an indication of willingness to accent

as an indication of willingness to accept a Palestinian state in the Israeli-occupied a ratestiman state in the Israen-occupied territories of the West Bank of the Jordan River and in the Gaza Strip, should this be decided at an expected resumption in 1977 of the Middle East peace talks in Geneva.

The guerrilla leader, head of the Palestine Liberation Organization, told the Saudi radio, as monitored here, that this stand was decided on by the Palestinian Central Council at its meeting Dec. 14

in Damascus. Some reports from Damascus said then that Mr. Arafat had failed in an attempt to persuade the council to give him a mandate to negotiate with Israel on the creation of an independent Palestinian

Other reports, however, said the Central Council did endorse, for the first time, the idea of forming a Palestinian state without first recovering all former territory of Polestine that now makes up Is-

Marcos Reports Progress In Talks to End Rebellion

MANILA, the Philippines, Dec. 22 (UPI)—President Ferdinand E. Marcos said today that a nine-point agreement had been reached with southern Filipino Moslem rebel leaders, leaving only one issue unresolved to end the four-year-old seressionist war.

issue unresolved to end the four-yearold secessionist war.

A total of 5,000 people are believed
to have died in the rebellion.

Mr. Marcos, in an Armed Forces Day
speech, said the agreement had been
reached during negotiations in the Libyan
capital, Tripoli, with leaders of the Moro
National Liberation Front. He did not
disclose any details, but he said that the
Philippines had been asked to form a
group to carry out the agreements and
that the Government would "determine
the areas of this understanding."

Before the Tripoli talks started under
the auspices of the Libyan Government

the auspices of the Libyan Government and the Islamic Conference, the Moro Front issued a nine-point demand, including self-rule with its own militia force in the southern islands of Mindanao, Palawan and Basilan and the Sulu Archi-pelago. The talks in Libya were described as only preliminary, with formal negotia-tions to follow in Saudi Arabia.

Thai Official Is Killed

As Guerrillas Down Copter

BANGKOK, Thailand, Dec. 22 (UPI)— Gunfire from Communist guerrillas downed a helicopter in southern Thailand today, killing a government official who was aboard, an Interior Ministry spokes man said.

Deputy Governor Somsak Tanthansen, 40 years old, was killed while on a re-connaissance mission over Suratthani Province, 330 miles south of Bangkok, where Government forces are conducting a large-scale operation to blunt a Communist offensive.

The helicopter was struck by machine-

gun fire as it circled over the Wiang Sa district, 50 miles south of the provincial capital, as troops were beginning a vil-lage-by-village operation there to root out Communist elements.

Mrs. Gandhi Carries Out Two Cabinet Changes

NEW DELHI, Dec. 22 (AP)—Prime Minister Indira Gandhi carried out a minor cabinet shuffle today with the ap-pointment of one minister and the resig-nation of another.

The changes were a prelude to the Congress Party's formation of a state government in Gujarat, which had been a stronghold of right-wing opponents of Mrs. Gandhi before it was put under federal control 10 months ago.

Hitendra Desai, the Gujarat Congress leader who had been a contender to head the new state government, was brought into the federal Cabinet as Works and Housing Minister, Political observers here said he received the Cabinet post because party leaders had chosen another Gujarat politician. Madhay Sinh Solanki, to head the state government.

The Cabinet minister who resigned was Raj Bahadur, who is to be appointed a state governor. He had led the Ministry of Tourism and Civil Aviation, which was given to an incumbent minister.

Leftists Defeat Premier In Mauritius Election

PORT LOUIS, Mauritius, Dec. 22 (AP)—Left-wing socialists won a decisive victory over Prime Minister Sir Seewoosagur Ramgoolam's moderate Labor Party, according to election results announced Wednesday. But Mr. Ramgoolam was expected to try to form a government with a small rightist party.

The Militant Mauritian Movement of Paul Berenger, a union leader, won 30 seats in the 62-seat legislature and captured 40 percent of the votes cast Monday.

day.

Ramgoolam's party, which has governed this Indian Ocean island since it became independent of Britain in 1968.

The right-wing Social won 25 seats. The right-wing Social Democratic Party took seven seats. The Labor Party received 37 percent of the popular vote and the Social Democrats 16 percent.

U.S. to Give \$200 Million In World Farm Aid

VAIL, Colo., Dec. 22 (UPI)—President Ford said today that he had authorized United States participation in an International Fund for Agricultural Development and the contribution of \$200 million to the program.

He said that the fund had received a total of \$1 billion in pledges and would be able to "provide financial assistance" to enable poor countries to increase their own food output."

A Town in Spain Cries Fraud and Has Its 'No' Vote Declared Void

By JAMES M. MARKHAM

CONSUEGRA, Spain, Dec. 21—This charming town, once known for little more than Secrembling ruins of a castle and inh buff, emerged from obscurity lest week

When the ballots were counted, Con-suegra was the only place in Spain that had voted "No" to the proposal of King Juan Carlos's Government to hold free elections next year for a new twochamber Parliament. The official tally here was 2,909 no votes, 2,371 yes votes, 253 blank ballots and 21 invalid ballots in a population of 9,623.

The only hitch was that many voters

in Consuegra, a town of farmers and construction workers on the plain of New Castile, were convinced that they had not voted much differently from the 94.2 percent of their countrymen who cast "Yes" ballots.

As the election returns began to trickle in from Madrid, the people of this town, 35 miles southeast of Toledo, began to resent their overnight reputa-tion as "the one fascist place in Spain."

Mayor and Bosses' Accused Spontaneously, shops were shuttered and an angry crowd of several thou-sand gathered in the tree-shaded Plaza de España. It stayed until 4 in the morning, in the cold rain, shouting slogans against Mayor Pedro Albacete del Pozo and "the bosses."

Shouts of "Consuegra voted yes!" and "Justice!" came from the crowd. A

"Justice!" came from the crowd. A graffito in red was painted on the town hall, suggesting that the Mayor be hanged. Some youths turned over an old Citroën and, thinking that it belonged to one of the town "bosses," set it afire. It belonged to the town price?

priest.

With prudent haste, Mayor Albacete, who is a medical doctor, submitted his resignation to the provincial governor in Toledo and fled the town. A daughter of his said he was "on a trip."

And, as if giving a lesson in democratic behavior, an apolitical young pharmacist named Antonio López Portillo stepped forward and challenged. tillo stepped forward and challenged the vote count in Consuegra, noting that the results of each of six polling places had not been posted outside as required by law.

MADRID, Dec. 22-Santiago Carrillo,

the general secretary of the Communist Party of Spain, who has been living un-

"There is no doubt that the people voted 'S!'-of this there is no doubt, the pharmacist said. He said he was at a loss to explain why the town's bosses would have tried to buck the national tide and fix the election. "Maybe they remember the civil war too much-a wound." -maybe there is too open

The provincial election board swiftly accepted the pharmacist's petition and annulled the embarrassing vote in Con-suegra. The honor of the town, which lies on the meandering trail blazed by Miguel Cervantes's most honor-conscious of Spaniards, Don Quixote, was

Provincial officials are now conducting an investigation of the Consuegra anomaly, and one uncomfortable figure is Angel Moraleda Sotomeyor, the town judge, who presided over the election and signed the final results.

Rumors of Dismissals and Shortages Sitting under a large color photograph of a trim and youthful General Franco, the judge fumbled about in his humble chambers for the precise results—they were retrieved by an ingratiating clerk—and conceded that "all the votes may remain null."

The judge blandly attributed the tumult that followed the vote in Consue-gra to rumors that because of the re-sult, "there would be no bread for the children, no fruits in the market, that people who worked in Toledo would be fired."

"The people, ignorant, were afraid of what was going to happen to them,"

Santiago Carrillo during press

conference in Madrid on Dec. 10.

the judge said with a weak smile. "The 'Si' or the 'No'—that did not matter

The 50-year-old Mr. Moraleda Soto-mayor has been the town's judge for five years. His father, he said, was shot by the republicans at the outbreak of the civil war, so was an uncle, a priest. In the narrow streets of Consuegra, one hears other stories-of pressure employers and landowners for "No" votes, of one or two visits to the town by Spain's ultrarightist leader, Blas Pinar, of four polling places that were effectively sealed off from any kind of public scrutiny.

Over coffee in the town's main bar, Antonio Ureña Risueño, 32, who owns small factory here, said he believed that Mr. Blas Pinar and his allies had originally hoped to build a "bastion" of "No" votes around Toledo.

But I think they gave up when they saw that the country was going to vote yes," he said. "But our bosses were the only stupid ones—and so they went

Another man in the bar agreed, and Another man in the bar agreed, and added: "This is the best present they can give the town. They have been doing this for 40 years—40 years of feudalism and bossism—but now everything is going to change."

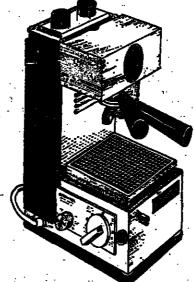

In the largely deserted town half a genial clerk was less euphoric and somewhat skeptical about everythere.

somewhat skeptical about everyone's new-found democratic inclinations.
"Of course," he said, "now you can't find anyone who voted 'No.' The whole town voted 'Yes.'

Federal Grand Jury Is Hearing Charges of a Conspiracy by C.I.A. and I.T.T. to Fabricate Data on Chile

Continued From Page 1

pecific statements and allegations about neetings at which participants from LT.T. nd the CLA allegedly discussed and greed upon testimony to be presented to be multinational corporations subcomlittée of the Senate Foreign Relations

That subcommittee, chaired by Senator rank Church, Democrat of Idaho, held ublic hearings in March and April at hich officials from the C.L.A. and from T.T. repeatedly testified that there had een no exchanges of intelligence inforation or other covert contacts betweenge two about Chile.

Asked whether such testimony had een prearranged, one key Government fficial said: "We have statements about but there's a lot to be corroborated." "I think it's there," he said of the nment's pending conspiracy case. In related testimony, Justice Departofficials said, Mr. Geneen repeatily told the Senate committee that LT.T. id not made any direct contributions any politician or political party before alle's 1970 presidential elections.

Contribution Indicated The Senate Intelligence Committee re-rted late last year that it had learned at LT.T., after receiving direct advice. m the C.I.A. on how to proceed, for-rded \$350,000 in cash to a leading con-vative candidate before the election.

information" was not consistent "with ny previous knowledge."

Mr. McCone, asked a general question about corporate political contributions during his testimony, declared: "I think multinational corporations, operating throughout the world, must be very very careful not to involve themselves in the ocal politics of the host country, and that

is the policy of LT.T."

At the tim eof the cultinational corporations subcommittee hearings in 1973, it was not publicly known that the rded \$350,000 in cash to a leading convarive candidate before the election.

e Intelligence Committee has turned er its records to the Justice Departion of Chilean President, Salvador Allende of Chilean President, Salvador Allende Goseen, spending more than \$8 million to prop up Mr. Allende's oponents. Mr. Allende's meeting in May that \$350,000 ay have been sent to Chile' in 1970. added that what he termed "this later Government and American corporations,"

died during a coup de'état in September

Mr. Helms, who will leave his ambassadorial post at the end of the year, has been under intensive Justice Department investigation for two years because of his previous Senate testimony denying that the CIA had conducted domestic intelligers and also denying that the agency had financially supported the opponenta öf Mr. Allende.

Prosecution in those inquiries was not sought, in part because Mr. Helms sought to "correct" some of his earlier testi-mony, thus blurring the record. Justice Department officials said at the time.

The revitalized grand jury investigation was spurred, all sources agreed, by the decision of Harold V. Hendrix, former Miami newspaperman and LT.T. political operative, to cooperate with Government prosecutors in return for being permitted to plead guilty to a misdemeanor charge stemming from his admittedly false testimony before the 1973 Senate hearing.

Mr. Hendrix, of Coral Gables, Fla., re ortedly told Justice Department investi gators that he had lied about the extent of his and I.T.T.'s involvement with the

ernment's investigation inadvertently be-came known during Mr. Hendrix's hear-ing on sentencing because United States District Court Judge James L. King, who heard the case, insisted that the Govern-

mitted the plea-hargaining arrangement to stand.

A transcript of that proceeding, made available to The New York Times, dis closed that Justice Department officials had been interrogating past and

C.I.A. during the hearings.

He pleaded guilty Nov. 5 to the misdemeanor charge of "withholding information" from Congress and was sentenced on Nov. 30 by a Federal court judge in Miami to a fine of \$100 and three months of nonreporting probation.

Some details of the scope of the Government's investigation inadvertently be was soing to investigate I.T." and present C.I.A. officials in recent months as well as collecting hundreds of cable-grams and reports dealing with the agency and I.T.T.

"In the spring of 1972," one Government lawyer told Judge king, according to the transcript, after it was known that the Foreign Relations Committee enquent's investigation inadvertently be was soing to investigate I.T." activities. was going to investigate LT.T.'s activi-ties in Chile, "Mr. Hendrix became concerned that his contacts in the C.I.A. and in South America would surface."

with agency employees up until the time of the subcommittee hearings in March and April of 1973." The Justice Department obtained copies of subsequent C.I.A. reports of those conversations, the court was told, that indicate Mr. Hendrix's intention was "to withhold from the committee the fact that he had been in contact with the C.I.A."

The hearing further showed that Mr. Hendrix, who won a Pulitzer Prize in 1963 for his reporting on the Soviet missile buildup in Cuba, had "on many occa-sions" both been given information by the C.I.A. and provided the agency with material he had obtained. He continued to do so, the transcript said, after leaving The Miami News and joining I.T.T. in 1967.

Asked about the Hendrix hearings, Justhat dozens of C.I.A. agents had been interrogated in recent months and hundreds cablegrams and documents dealing with

Along with testimony from Mr. McCone and Mr. Hendrix, the grand jury is known to have beard testimony in recent weeks from David A. Phillips, another former high-level C.I.A. official who headed a specially assembled Chile task force in the agency in the early 1970's.

A Justice Department official cautioned that "I wouldn't want to get overly en-

couraged about this." "The case has generally moved in a very professional way and we think there is a provable violation," he said. "On the other hand, there are a lot of hairy considerations in this. Demonstrating a violation to the orand jury and setting a

heard the case, insisted that the Government prosecutors "go into more details," concerns," the Government prosecutors courtroom conviction, he said, are different prosecutors as one court source said, before he per-

Government officials indicated that the Government was still seeking more wit-

Precisely how the Justice Department developed its case against Mr. Hendrix and forced him to begin cooperating could not be learned. Mr. Hendrix, contacted by telephone at his home, and his attorney, E. David Rosen of Miami,

refused to discuss the case. Government sources did say, however that testimony volunteered in June by Edward M. Korry, the former ambassador

to Chile, was "helpful." In an interview at his home in Briarcliff Manor, N.Y., Monday night, Mr. Korry said that he wrote Edward Levi, the Attorney General, late in March and requested a full investigation.

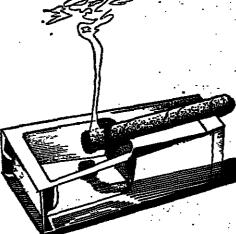

At that time and in a subsequent sworn tice Department officials acknowledged deposition, taken by the Justice Department, Mr. Korry said, he told of the \$350,000 contribution by LT.T. to one of of hours had been spent studying C.I.A. Mr. Allende's opponents in the 1970's. He also accused "leading officials of LT.T. and of other multinational corporations' of perjury in their 1973 Senate testimony.
At the specific request of Justice Department attorneys, Mr. Korry said, he provided the names of Chileans who had first-hand knowledge of LT.T.'s contribu-

tion.
"I didn't know of the \$350,000 paymens until after the fall of Allende," said Korry, who served as ambassador from 1967 to 1971.

"The purpose of the(LT.T.) money was to prevent Allende from being inaugurat-ed" as president, he said.

The first published reports of the active grand jury inquiry into the C.I.A.-Chile connection came Sunday in a dispatch

TECH HIFI HAS A CHRISTMAS "PACKAGE" FOR YOU.

If you like listening to music but think that putting together a good component system is too complicated, Tech Hifi has a Christmas "package" that's just for you! These "package" music systems feature the best components made - we've already matched them for you to assure optimum performance

So for the price and convenience of a mediocre "compact", you can have a great-sounding component system!

What's more, the massive buying power of the fifty-five Tech Hiti stores means we can not only guarantee you the lowest price for your "package" system, but also include our fourteen important Customer Satisfaction Guarantees.

Tech Hisi's Christmas gift to you is the 112-page "The Hisi Book". It contains everything you need to know before buying hifi and includes photographs and descriptions of fifteen system packages ranging from as little as \$199, to as much as \$6,150. One of them will sound perfect to you! To get your free copy of "The Hifi Book", just drop by the Tech Hifi nearest you. We're open until 9:00 P.M. weekdays and until 6:00 P.M.

Our \$799 Package.

AT100E Dual Magnet cartridge.

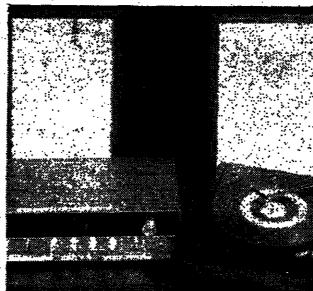

When it comes to big Christmas packages, you're not likely

arraigned tonight before a Federal Magis-trate in Silver Spring, Md., a suburb of Washington, on charges of unauthorized. At l

In announcing Mr. Moore's arrest, the Federal Bureau of Investigation said that the investigation implicating the former C.I.A. man began about 24 hours before his arrest when a mysterious package was discovered on the grounds of a Sovi-at "establishment" here.

Soviet Apartment Complex

Sources familiar with the investigation

They said that the package, which was believed by the Russians to contain a bomb, was surrendered unopened to officers of the Executive Protective Service, the uniformed branch of the Secret Service that is charged with guarding foreign diplomatic installations in the capital.

One source said that the package was addressed to "the Soviet resident," a term that that nation's intelligence service, the Committee for State Security, or K G.B., uses to identify the chief officer in each of its overseas stations.

Inside were a number of Government ocuments, some of them classified "seet," and a note offering additional ma-rials in return for a \$200,000 cash payent to be left today at a point near . Moore's home in Bethesda, Md., thew irces said. The note was unsigned, they

Of Official Phone Conversations

C.I.A. Official Says Government's Repression Causes Instability and Imperils American Interests

By RICHARD HALLORAN

WASHINGON, Dec. 22-The former tation chief of the United States Central station chief of the United States Central Intelligence Agency in Korea, Doneld Gregg, has asserted that the Government of President Park Chung Hee is inherently unstable and, therefore, jeopardizes American interests there.

According to sources who heard Mr. Gregg address a class in East Asian studies at the University of Texas last October the CLA official said that President

October, the C.I.A. official said that President Park's regime was repressive and that he had found many aspects of it personally offensive.

years ago that the United States was working itself into a dangerous position by continuing to support the Park Government. He recommended that Washington slowly disengage itself.

The policy of the Nixon and Ford Administrations, however, has been to constitute full support of President Park on the ground that any other course might undermine Korean security and thus American national interests in East-Asia.

According to the Texas sources Wr. Specifical for comment.

A C.L.A.spokesman said that Mr. Gregg is the matter even though his remarks in Texas had become known.

He was the agency's station chief in Seoul from und-1973 until earlier this tent Park imposed increasingly restrict two rules on his nation. Mr. Gregg is currently working at the agency's head. According to the Texas sources, Mr. Gregg also said that the C.I.A. had a close working relationship with the Korean Central Intelligence Agency in training and in operations directed against North Korea. He was reported however, to have said that he did not like the implications

of that close relationship. Magazine Reported Remarks

Mr. Gregg denied in a telephone inter-view that he knew of alleged K.C.I.A. operations in the United States but said that he was shocked by the ease with which Korean largesse was accepted on Capitol Hill and then rationalized away. He declined, however, to repeat the spect-

PARK REGIME CALLED

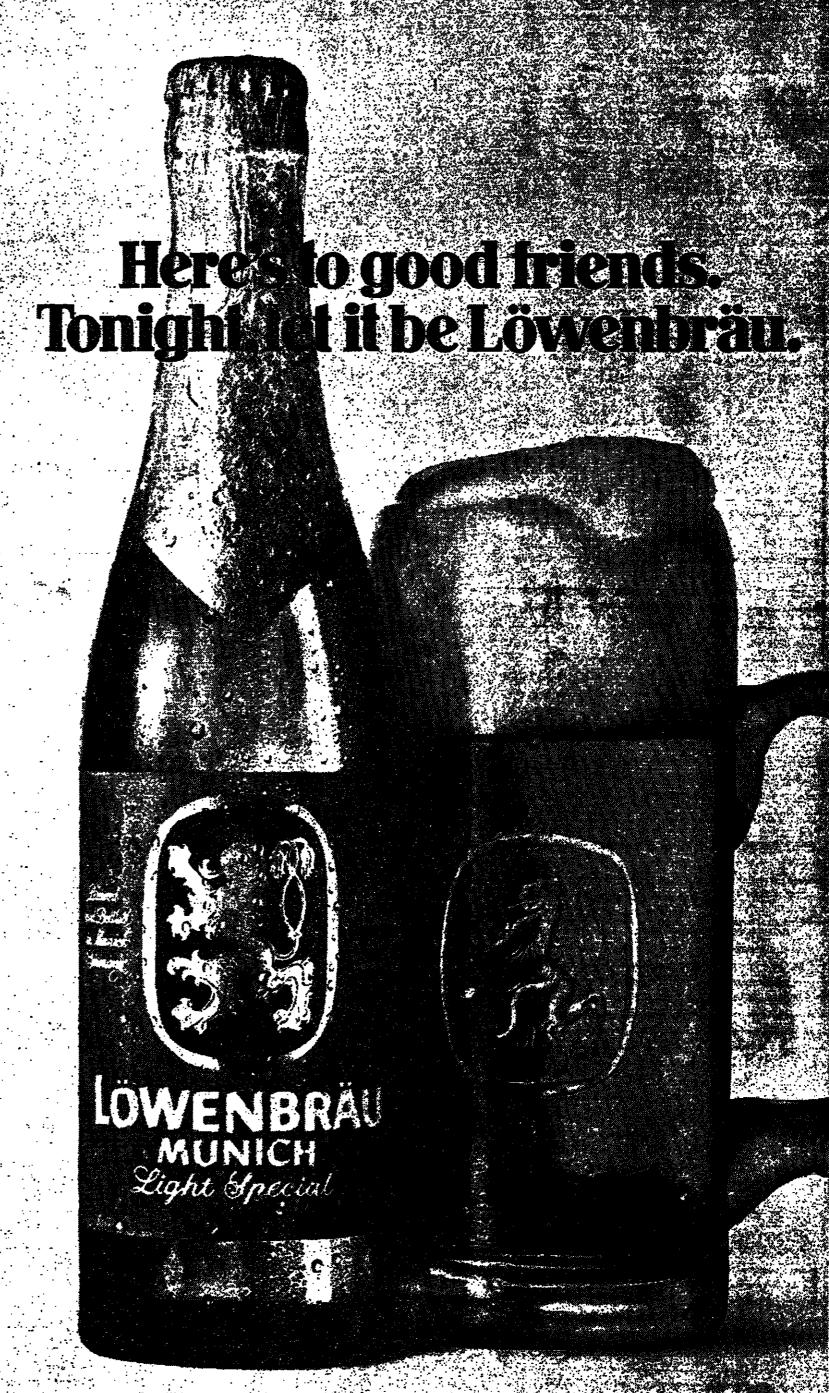

could not last long. But he was said not to have put eny time limit on the issue or to have suggested how Mr. Park's Government in that he saw no purpose in it and that or to have suggested how Mr. Park's Government in the instructions by his agency not to remain the instructions by his agency not to repeat them. He added that there had been a lot of pressure from the Kodargued in a confidential report several years ago that the United States was year ago that the United States was year of comment.

A C.I.A spokesman said that Mr. Green

quarters outside Washington.

A brief account of Mr. Gregg's remark appeared in the December issue of Com-terSpy magazine, a radical publication that tries to expose the C.LA. That article asserted that Mr. Gregg had predicted President Park would not live to serve out another six-year term if he were re

ected in 1978. He was also reported to have said that the best thing Mr. Park could do for his nation was to resign and open the wa for a peaceful change of government.

10th biggest spill in history.

Robert White, the director of the National Oceanic and Atmospheric Adminis-tration, asked at a news conference this afternoon how had the situation was, replied "I don't know."

Russell Train, the head of the Federal Environmental Administration, told the same conference at Boston's Logan Airport that "the potential is there for serious, adverse ecological effect."

Mr. Train said that a preliminary analyas indicated that a substantial amount of the oil was suspended just below the surface of the water.

At the National Marine Fisheries Services offices in Woods Hole, Mass., Julius Posegay said that the rough weather had hampered research efforts and that it was too early to tell what the effect of the would be But, he cautioned, "there is a problem in separating what may be the short-term effects from the long-term

Although there had been predictions that the oil would sink to the bottom, one scientists said that this did not spear to be likely. Jerome H. Milgrin, an associate professor of ocean engineering at the Massachusetts Institute of Technology, who has been testing oil samples from the area, said in a telephone interview tonight, "What we have seen thus far is not indicative of oil sinking." Some of the oil might sink, he said, if it coated objects in the ocean.

The break-up of the bow of the Argo Merchant in the cold, pounding seas was iscovered by the first Coast Guard flight over the area at mid-morning.

Last night, Captain Lynn Hien, in harge of the Coast Guard salvage effort, sid plans to attempt to refloat the sections of the ship, which still had oil in the tanks, and tow them out to sea and be tanks, and tow them out to sea and be tanks and tow them out to sea and be tanks and tow them out to sea and be tanks and tow them out to sea and be tanks and tow them out to sea and be tanks and tow them out to sea and be tanks and tow them out to sea and be tanks and money.

The ship's captain George Papadopoulous to sea and money.

400 Birds Coated With Oil

There have been some signs of the efects of the spill. Mr. Keough said that bout 400 birds, mostly seaguils, had een found coated with oil. Two New "in the wrong position." adford fishing vessles have also reported outacts with the oil. One found a scallop ed coated with oil and a dragger had s nets fouled with oil and had to cut bem loose. At New Bedford and at other

reas of Georges Bank and the svawning flight.

ver how the spill occurred and how it not been repaired, he said. 'as handled. The Nantucket shoals are usually well-charted waters, but the Coast Guard's handling of the spill. Lieut 130 Merchant was about 10 miles away Gov Thomas P O'Neill 3d charged the as handled. The Nantucket shoals are

ATime For Reflection. **Does Anyone Really Care About Vivisection?** Some Don't Know. The many people who don't even know what vivisection is don't know if they care. For those of you who don't know, vivisection is defined as animal experimentation, especially if considered to cause distress and pain to Among those who do care about vivisection are the people in the billion dollar a year animal research industry who defend the practice by saying that it is necessary to save or prolong human life. In fact, an estimated 70% of all animal experimentation is performed not for medical purposes but for cosmetic testing and other non-medical purposes. We Are Against It. Finally, we, the members of the New England Anti-Vivisection Society care about vivisection. We care for the millions of helpless animals tortured, maimed and killed each year in research laboratories throughout this country. We believe (as do many scientists) that the validity of findings from animal research as applied to man are highly suspect and that the practice of vivisection is immoral. We want to stop it. We need your help.

Nantucketers Understand Fragility of Island Far at Sea

By CHRISTOPHER LYDON

Special to The New York Times NANTUCKET, Mass., Dec. 22-The miracle of Nantucket was always that it survived at all. For all the summertime splendor of Main Street's mansions and shops, for all the pristine per-

sons and snops, for all the pristine perfection of nearly 1,000 town houses of the whaling era and before,
The Talk the island still looks from of the air like a wisp of sand dunes. Herman Melville called it an "anthill in the sea" in Chapter 14 of "Moby Dick" and marveled: "Look at it—a mere billock an albow of sand

it—a mere hillock, an elbow of sand; all beach, without a background. There is more sand there than you would use in 20 years as a substitute for blotting paper. Some gamesome wights will tell

paper. Some gamesome wights will tell that you have to plant weeds there, they don't grow naturally; that they import Canada thistles: that they have to send beyond seas for a spile [a plug] to stop a leak in an oil cast."

As the worst oil leak ever in American waters moved tentatively away from Nantucket's beaches, the temptation among islanders here was to be cavalier. "We're used to these natural disasters," said Robert F. Mooney, the town prosecutor, turning puckish. Maybe town prosecutor, turning puckish. Maybe we'd better send an emergency message to Plains. Ga., and ask for more reporters up here."

Nantucket in the wintertime is a proudly isolated town of some 5,000 weather-proof souls who voted last spring to start construction of an airport motel designed to service oilmen drilling on fish-rich Georges Bank off the Nantucket coast; at the same time Nantucketers were voting by a margin of 3 to 2 against the so-called Kennedy Bill that would have put land and wild-life protection into the powerful hands of the Foderal Covernment.

of the Federal Government.

The islanders' view has long been that they, and perhaps only they, understand the fragility of this "land far out to sea," as the Indians named it, because they have lived with the immense power of wind and water 30 miles out in the North Atlantic. Accordingly visitors inquiring about the Argo Merchant oil emergency are sometimes treated to amused disdain. "Remember that two reporters in one day is at least one too many for most Nantucketers." Mr. Mooney said. "We're not used to being followed around by 'the boys on the bus.'"

"I'm not that upset," said Walter Glidden, Nantucket's busiest fish dealer, "because I'm a guy that takes one day at a time. I've never seen anything like this before. What are you going

The most piercing scorn is reserved The most piercing scorn is reserved in for the oil company spokesman who in only two weeks ago asserted at a public hearing in Boston that he learned in the Guli of Mexico all that is needed to be known about cleaning up possible oil spills in the Georges Bank. One plan for getting oil from Georges Bank to the mainland was through the use of tankers such as the Argo Merchant. In the current crisis, all the authorities have said that they are helpless to do anything about the tanker that split on the Nantucket shoals.

Defense Fund, a conservation group, observed today, "It all brings back to me the seaman's prayer: 'Oh God, thy sea is so great, and my boat is so small.'"

The lesson here, though islanders doubt that outsiders and especially the oil industry will learn it, involves humility before the natural elements.

"It's probably our good fortune," said Bob Dennis, a sport fisherman and activist member of the Nantucket Land Council, "to be shown the impact of an oil spill, But what kind of good fortune is that? I don't think if they'd will off Courses for 20 years they drilled off Georges for 20 years they would have spilled the seven million gallons that were in that tanker."

A Nantucket whaleman that Melville celebrated is extinct. Melville wrote, "Two-thirds of this terraqueous globe are the Nantucketer's. For the sea is his: he owns it as Emperors own em-

But commercial fishing has been resurgent here, as has the mainland coast of New England, and the gravest concern about the oil damage [much more than for tourism] was being expressed by fishermen, not only for their balance sheets but for the natural balance of marine life. ance of marine life.

Bill Blount, a red-bearded 31-year-old. originally from Newport, R.I., is one of numerous young men, mostly college-educated entrepreneurs, sons of the middle class, who have undertaken the rugged fishing business of Nantucket. They have done well in it. An aggressive fisherman with a good boat can net between \$50,000 and \$100,000

can net between \$50,000 and \$100,000 a year.

And they had hoped to do better with the new 200-mile limit protecting coastal fishing grounds from foreign intruders. Today on Straight Wharf, waiting for this morning's stiff wind to calm, Mr. Blount worried about long range effects of the spill. "If it gets down to the bottom, he said, "it will still be hubbling up 10 years from now. It will never be gone.
"It's going to cut out a big fishing

"It's going to cut out a big fishing area that I might have worked on," Mr. Blount said. "You see, fish migrate through the Nantucket Shoals, and some of them are spawning there now. Codfish, yellowtails, flounders, daylights, sand dabs and see dabs, haddock trave sale and lemon sole-all. dock, grey sole and lemon sole—all your winter fish spawn up and down this coast from December into the spring, and all that oil rolling around is going to spread a lot of poison over the eggs and young fish.

"If the oil rolls off to the southeast along the bottom, it will roll into all the sea canyons that the lobsters use as their base of operation-Veatch Canyon, Lydonia Canyon, Hydrographer Canyon." Mr. Blount said, poring over the nautical charts of the edge of the Continental Shelf.

Yesterday. Bill Blount found "I couldn't watch" when gulls landed on his boat, preening their oil-soaked feathers with their beaks in a cleaning process that would doom the birds because of the process that would doom the birds because of the process that would be because of the process that would be because of the process that would be be a second that would be be a second to b cause of the poison they were eating. The birds affected worst, Mr. Blount

said, would be the offshore birds that fishermen admire much more than the scavenging gulls. Mr. Blount called them "birds that for grace and beauty make Jonathan Livingston Seaguli look

The wreck of the Argo Merchant, like many disasters, will be a field day for lawyers. Francis J. O'Rourke, counsel to the Nantucket Conservation. Foundation Inc., remarked today that Thebes Shipping Inc., company that owned the errant tanker, was insured "as of August 1975 by the West of England Shopowners Mutual Protection and Indemnity Association of Luxem-

Los Angeles Reviewing Approval of Gas Terminal

By JON NORDHEIMER

LOS ANGELES, Dec. 22-The blast sent Gregory Smith's Christmas tree skidding

An oil tanker had blown up in the harbor amid storage tanks holding millions of barrels of oil and other volatile fuels. The fire was contained to the ship, but at least four persons died and 50 were hurt in the explosion, and five crewmen are still missing.

Port Project in Doubt

That was Friday night, a day after the Los Angeles City Council, over the pro-test of environmentalists and safety engineers, had voted to approve the proposed construction of a huge liquefied-naturalgas facility at the port. At that meeting, Council President John S. Gibson Jr. had Tomorrow the Council is expected to delay final passage of the proposal, by the Pacific Lighting Company, and Mr. Gibson, along with other Council members who had initially approved the plan,

NASA Awards Contract On Satellite System

WASHINGTON, Dec. 22 (UPI)-The National Aeronautics and Space Admin-istration awarded a 10-year, \$796 million contract today for a new type of satellite tracking system that will eventually per-mit the closing of seven ground stations around the world.

The new system to go into operation in 1980, will use two special satellites in stationary orbit for communications beween unmanned and manned spacecraft in Earth orbit and a ground terminal at White Sands, N. M.

The two relay satellites will be posi-tioned in 22,300-mile-high orbits so that percent of the time.

at least seven ground stations. Some will emain open to track satellites in orbits higher than 3,100 miles.

The contract, amounting to \$79.6 million for 10 years, went to Western Union Space Communications Inc., of Upper Saddle River, N. J. Major subcontractors include TRW Defense and Space Systems Group, Redondo Beach, Calif., and Harris Inc., Electronic Systems Division, Melantes

Justice Dept. Accuses San Diego of Job Bias

SAN DIEGO, Dec. 22 (AP)—The Justice Department has accused the city and county of San Diego of discrimination in the biring of women and members of

In a suit filed yesterday in United States District Court, the department isked for an order to halt discriminatory hiring and to require the city and county to hire more women, blacks and Spanishsurnamed workers.

The city's Fire Department was singled out as the worst offender, although all other departments of city and county government were named, with the excep-tion of the San Diego Police Department. The suit said that of the Fire Department's 667 uniformed personnel only 23 were Spanish-surnamed, 22 were black

and none were women. The suit said that the hiring practices violated the Civil Rights Act of 1964, the Equal Employment Opportunities Act of 1972, the State and Local Fiscal Assistance Act of 1972, and the 14th Amendment to the Constitution.

Ford Recalling Granadas With Old Gasoline Caps

DETROIT, Dec. 22 (AP)—The Ford Motor Company is recalling 4,400 new Granadas because they may have been fitted with year-old gasoline caps that do not meet revised Federal safety standards.

The company said today that 1976model caps were "inadvertently installed" on some of the 1977 models produced between Sept. 1 and Octo. 18.

The 1977-model caps have been re-lesigned to meet new Federal rules dealing with fuel-system integrity after rear

barrier crash tests, Ford said. A spokesman said there had been no

U.S. Opposes Klan's Use Of School for a Meeting

WASHINGTON, Dec. 22 (UPI)—The Government contends that the Ku Klux Klan should not be allowed to use a high school auditorium for a "patriotic meet-ing," because that would undermine efforts to desegregate public schools.

The Department of Health, Education

and Welfare released today copies of a brief that was filed last week by the Justice Department and H.E.W. in a case before the United States Court of Appeals for the Fifth Circuit involving Klan rental of the Bellaire High School auditorium

of the Bellaire High School auditorium in East Baton Rouge, La.

The school board initially approved the rental application, but changed its mind after an H.E.W. official warned that Klan use of the building would lead to proceedings to cut off the school system's Federal aid. Bellaire has been under a court desegregation order.

The Klan went to court to obtain

access to the school auditorium. A Federal district court upheld denial to the facil-ities, and the case is before an appeals court

The orief said that a Klan meeting in a public school represented a greater threat to the Government and the interests of school desegregation than any harm the Klan might suffer by demal of its rights to free speech.

REMEMBER THE NEEDIEST!

PILOT RELEASED FROM HOSPITAL: Donald N. Kroner, who crashed his light plane into the upper deck of Baltimore's Memorial Stadium on Sunday, being taken from Union Memorial Hospital yesterday to Northera District Court for arraignment. The mishap occurred only minutes after the Pittsburgh Steelers. No one else was injured in the crash.

A spokesman said there had been no reports of fires or injuries resulting from the problem. He said all the cars would be inspected and 1977-model caps would be installed, if necessary, at no cost to the owner. Also affected by the recall are 350 Granadas in Canada and oversease.

The main impetus for the national flu vaccination program and the much ex-panded surveillance effort was the outbreak of swine flu at Fort Dix, N.J., in February,

Wisconsin Cases Only Known Ones

Since then the two cases in Wisconsin have been the only known isolations of swine flu virus from humans anywhere in the world. Experts generally seem to attribute the discovery of these cases pri-marily to the fact that the search for flu virus is more intense than ever before. Scientists in many centers, however,

expect to learn much about the natural ebb and flow of lu virus from the surveillance effort that began last spring. The Center for Disease Control draws its continually changing profile of flu and flu-like illness in the United States from about 5.000 individual sources that inindustry and school absenteeism surveys, individual "sentinel" physicians who have agreed to report flu-like illness and the

virus detecting efforts of 70 or more labo-An important part of the virus detection effort is a cooperating group of 10 medi-cal center laboratories conducting their joint search on contract with the National Institute of Allergy and Infectious Dis-eases, a unit of the National Institutes

of Colorado, in Denver, who coordinates this effort, believes a concerted virus detection effort might be able to give three-to-five weeks advance warning of a major flu outbreak in a community.

The accumulating flu surveillance data of all kinds are fed into a computer, according to Dr. Richard O'Brien of the Federal center. The computer is capable of picking out for attention any unusual event or trend.

Unopposed Congress Candidates Report Surpluses

Continued From Page 1

to an account to help meet Congressional Office expenses or used "for any other lawful purpose." There is nothing to pre-vent a senator or representative from simply pocketing the money.

In almost all cases, surplus campaign contributions probably represent taxable personal income to the members of Congress who receive them. Such money is unquestionably taxable if it is used for personal purposes. If it is placed in an office account, it is taxable, but expenses charged against it are deductible as long as they represent legitimate functions of the legislator's office.

When such surplus money is transferred to another candidate as a campaign contribution, the law is unclear, some lawyers believe that such a contribution would still be taxable for the

At least two House members have invested large parts of their campaign sur-pluses — \$50 000 and \$80,000 — in interest-bearing ink certificates and accounts that re making their successful re-election efforts even more profitable.

When a special-interest group donates \$5,000 to the campaign of a senator or is thus assured of election, it is legally nomination in January 1976 and raised

ending two weeks after the election. Some of the 50 senators and represen tatives either raised very little money in the first place or spent almost all they raised. But 42 of them had campaign surpluses larger than \$5,000 and 29 larger than \$10,000.

Largest Surpluses

The largest surpluses reported were: Senator Byrd, \$160,300, including \$76,000 Senator Byrd, \$160,300, including \$76,000 from his abortive Presidential campaign; Representative Gillis W. Long of Louisiana, \$122,400; Representative Joe D. Waggoner Jr. of Louisiana, \$79,200; Representative Jack Brooks of Texas, \$63,700; and Representative Bill Archer of Texas, \$61,900.

Mr. Waggoner's report showed a cash

the Commercial National Bank of Shreve-port, La., obviously an additional asset. Although four of the unopposed candidates reported spending about \$1,000 each and three reported spending noth-

Such contributions came from political action committees organized by corpora-tions, labor unions and professional and trade associations. Under the campaign law, these groups collect voluntary con-tributions and then divide the resulting fund among political candidates believed to favor the special interest of the sponsoring group.

Limits on Contributions

These committees are limited to giving \$5,000 to a candidate during the primaries and \$5,000 during the general election. In the case of Presidential candidates, only primary contributions are per-

Senator Byrd is in a different political position from all the other candidates with campaign surpluses because he is seeking a leadership post next month.
His only remaining opponent for the majority leadership is Senator Hubert H.
Humphrey of Minnesota, the former Vice

President.
Senator Byrd is free to make or pledge contributions out of his \$160,300 surplus to any of the 1978 campaigns of the 16 Democratic Senators who will be up for re-election then. There appears to be no business and professional committees and reason why his committee. Mr. Bell, who also postponed until next week a news conference that had been scheduled for tomorrow, said this evening through a spokesman that he had made the decision on his own, and had not discussed it with Mr. Carter.

Today, while on the way back to Plains after attending the funeral of Mayor Richard J. Daley of Chicago, Mr. Carter told reporters that he believed the criticisms of Mr. Bell would be short-lived and that "as people get to know Griffin, they'll appreciate him like I do."

Mr. Carter also professed not to be disturbed by the reports of Mr. Bell's memberships in the two clubs, the Piedmont Driving Club and the Capital City "Almost every person in the past has belonged to some kind of club that does-n't have both women and blacks or Chris-tians or Catholics or Protestants," he

! said. Even before the reports of his member-ship in the two clubs, Mr. Bell's nomination to be Attorney General had been criticized by a number of groups. Among those who felt Mr. Carter had made a poor choice were a number of civil rights leaders who felt he had not done enough as a Federal judge to speed the pace of school desegregation; Ralph Nader, the consumed advocate, who complained that his decisions from the consumed that his decisions from the bench had been anticonsumer and pro-big business; a number of liberals who recalled his endorsement of G. Harrold Carswell, whose

nomination to the Supreme Court by President Nixon was rejected by the Senate.
While Mr. Carter indicated to reporters yesterday that he had great confidence in Mr. Bell, some of his staff members, nonetheless, have been trying to assess the amount of opposition he is likely to

receipe, In the two days since Mr. Bell's nomi nation, members of Mr. Carter's staff staffs of some of the liberal members of the senate Judiciary Committee, which must confirm his nomination, trying to assess how much resistance the nomination. In the statement released today, Mr. tion will receive. The reply, according to a number of the Senate staff members, was that Mr. Bell probably was not in danger of being rejected, but that the hearings might prove long and controver-

"It's going to cost you a lot of chips, one staff member told the Carter aides Another said: "It's going to leave a bitter taste in everyone's mouth"

While Mr. Bell's decisions in some of several days after the 141 school desegregation cases he speech became public. the 141 school desegregation cases he heard during his 15 years on the Fifth Circuit bench occasionally rankled civil rights leaders, he also received some high praise from blacks. Earlier this year he received a "Man of the Year" award from Morris Brown

Women Leaders Differ With Carter On the Difficulties of Taking U.S. Jobs

By LAWRENCE VAN GELDER Is it really tougher to persuade a woman than a man to pull up stakes to go to Washington to accept a post in Government?

That's what President-elect Jimmy

"Carter said in the days before he named Datricis Poberts Harris to be Secretary."

Patricia Roberts Harris to be Secretary of Housing and Urban Development and Juanita M. Kreps to be Secretary of

But some women leaders and leaders of women would differ with Mr. Carter's assertion that: "Women have a much more difficult time telling the they're going to move to Washington than do men. And I've had several women who have expressed concern that they would like to serve in the Covernment and they issue to serve in the Covernment. Government, and they just couldn't split their family and their husband

was not willing to move."

The teminist leader Gloria Steinem said: "Obviously, it's true at a societal level. But it is not true at the level he is speaking of. There are vast numbers of women far more qualified than the men he has already appointed, who have been in public life for many years and have solved those problems."

Women of achievement sufficient to render them sligible for consideration

render them eligible for consideration for high-level Government posts have tended to solve such problems earlier in their lives. This point recurred in conversations with several Congress-women but not all agreed that it was easier for a woman to pull up stakes.

In Corporate America' "I think the President is right. Unless thank the President is right. Unless the woman is single, like Liz Holtzman, or divorced or widowed, she does have family obligations," said Representative Helen S. Meyner, Democrat of New Jersey and wife of former Gov. Robert 3. Meyner, "Traditionally it is the wife who moved with the husband. In corporate America it has been tradi-ionally true. I think this is changing."

Agreeing basically with Mrs. Meyner, vho spends her weeks in Washington and weekends in New Jersey, was the eminist leader Betty Freidan.

Mrs. Freidan, who expressed pleasure hat the President-elect had, she said,

eeded women in making his appoint-nents as he had heeded other contituencies, said:
"I don't think that the decisions

aving to do with the reaction of the usbands of Juanita Kreps and Patricia " oberts Harris were necessarily any nore complex or difficult than those of nine wives of the men who were chosen. It "The only difference is that there are Ptill some wives today who don't have imflicting professional commitments f their own, whereas all men do. But us is a transitional thing." Representative Bella S. Abzug, the

ianhattan Democrat who, like Mrs. eyner, spent weekdays in Washingin and weekends at home, said of overnment service, "The fact is that

Helen S. Meyner "I think this is changing."

"No one would ever say that it is simple."

Bella Abzug "There are many women who travel for careers."

Mrs. Abzug said that she regarded the necessity to split oneself from one's family as "the most difficult part of the job." But she said that many men find it as difficult as do women. "It's sort of 2 problem of the office rather than

a man or a woman."

Mrs. Abzug was one of the women who pointed out that the problem of jobs that call for travel had usually been met by women of achievement long before they were recruited for the Government. "The fact is that there are many women in public, professional and leadership life who do travel for their careers, and their husbands either do move with them or they work out an arrangement by which they do travel."

Representative Patricia Schroeder, Democrat of Colorado, had a son, 6 years old, and a daughter, 2, when she

years old, and a daughter, 2, when she was first elected to Congress. Her husband was a lawyer in Denver.
"I think no one in the world would ever say that it is simple," she said of the problem posed by the demands of her office. "I would also say that most of the women who are qualified have dealt with this issue all their life."

It All Worked Out?

The 36-year-old Mrs. Schroeder, who is about to begin her third term in the United States House of Representatives, said her husband James, had moved to Washington with her and took on a new job as a lawyer that enabled him to combine his interest in international
affairs and the law in a way that would
have been "impossible" in Denver.
"So it all worked out," she said.
Mrs. Schroeder said she had been so

irked by Mr. Carter's perception of his difficuties in recruiting women that she had called Georgia, where an aide to Mr. Carter, whom she was unable to identify, had attempted to restrict the scope of Mr. Carter's comment to Jane Cahill Pfeiffer, a former executive of I.B.M. who declined appointment as Sec-retary of Commerce, citing her wish to remain with her husband and his children and concern about the state of her

Another woman Representative who faced the problem of a move to Washington was Margaret Heckler, Republican of Massachusetts, who has been a member of the House for 10 years. Mrs. Heckler is now 45, and her chil-dren were 9, 7 and 6 years old when she was first elected.

At that time, she said, her husband, John, who worked for an investment concern, felt he could transfer to a branch in Washington. But in reviewing his situation, she said, he discovered "he would be losing a great deal if he moved.

Mrs. Heckler said, "We kept our home in Boston and the children and I moved to Washington. He then began his weekly shuttle to Washington. The children have had an almost normal as normal as a political family can be

-upbringing." Mr. Heckler now has his own busi-

"Sometimes," Mrs. Heckler said, "we are 727's that pass in the night."

Stella Blum, curator of costumes at the Metropolitan Museum of Art, who sees fashion as a social statement.

A Curator's World: Where Clothing Ends And Fashion Begins

Now that the show "The Glory of Russian Costume" has settled down to a successful run at the Metropolitan Museum of Art - 27,000 people wandered through it in the first week-Stella Blum can settle back into her

That means dealing with Seventh Avenue luminaries such as Bill Blass, Halston or Oscar de la Renta who want to check some historical data in the costume library. It means keeping orderly and accessible the collection's 25,000 articles of dress, which are arranged chronologically, geographically and by subject.

It means working with design schools, visiting tour groups, theatrical designers and even authors seeking costume information for povels.

Art collectors ask her help in dating paintings—costume details are one of the most reliable methods of doing this—and people often seek her out to determine the age or value of a family

A Subject Worthy of Research

For Mrs. Blum, curator of the museum's costume collection, and a mem-ber of its staff almost since its inception 40 years ago, is that rarity, a cos-tume scholar. She helped develop the field as an area of serious study, and her interest is directed to the present as well as the past.

Clothing, to her, is as worthy of research as any other appurtenances of a civilization-its houses, its pottery,

its furnishings and its art. Its concomitant, fashion, is no trival matter.

"Fashion is a social agreement," she explained the other day in her meticu-lously neat, brilliantly lighted office be-hind the Russian show. What happens in fashion is the result of a consensus of a large group of people that that is what they aspire to."

Everything affects fashion. The current meeting of the Organization of Petroleum Exporting Countries, with its decision to raise the price of oil, will have an influence.

"With heating and transportation more expensive," Mrs. Blum speculat-ed, "people may keep their homes at a cooler temperature and they may travel less, centering their lives more within their communities.

A Greater Need for Clothes

"As a result, they will need warmer clothing, possibly clothing in layers, and they will need more clothes, since if you see the same people, you need more changes because you don't want your friends to see you in the same things all the time."

Mrs. Blum is also concerned with more abstract considerations.

"I would like to do some work on where clothes really start in the history of man, and where clothing ends and fashion begins." she sald. "I think these things could tell you more about the nature of mankind than many other areas of study."

She leans to the idea that body coverings started as decoration, per-haps for religious purposes or for camouflage, rather than to keep warm. And she believes that "fashion was born in man's first leisure moment." People, she contends, get too psychological about fashion, both in its begin-

"No one seems to bring up the esthetics of it," she said. "People dress not only for sex or status but for the pure pleasure of it—they try to put themselves together because it pro-duces a thing of beauty that is satisfy-

The Russian exhibition pleases her because it is part of an exchange of art between the Soviet Union and the United States. Only reluctantly has the art world accepted clothing as part of its dominion.

The Metropolitan's costume collection had its beginning in "The Museum" of Costume Art," established by Irene Lewisohn in 1937. This was the first museum devoted exclusively to costume as an art.

Until then, museums had collected costumes mainly for their fabrics; pricharming curiosities. Few people con-sidered clothes as important for esthet-ic and historical records: Mrs: Blum joined the museum in 1940, when it was housed in the International Build-

ing at Rockefeller Center. Mrs. Blum, who was born in Schenectady, N.Y., had recently graduated from: Syracuse University, where she was a fine arts major. She had tried her hand at fashion illustrating in her senior .year and won a fellowship for further study, which she could not afford to

After a few years, she left to raise a her two sons, Walter, who now is a surgeon, and Eric, who is an account ant. When she returned in 1953, the museum had already been installed at the Metropolitan Museum, having undergone a name change to the Costume of Institute. It wasn't until 1960 that it: became a full-fledged department of the museum, Mrs. Blum became curator in 1970. She is the first to have that

A Fashion Contest Finalist

After she had retired temporarily, Mrs. Blum studied philosophy and psy-chology at Queens College and attend-ed the New York Institute of Fine Arts, applying what she learned to costumes. And in 1948, she entered a contest for fashion design sponsored by The Chicago Tribune. She was one of the final-ists, along with George Nardiello and William R. Blass, both of whom became. known on Seventh Avenue, the latter ... as Bill Blass.

"I like drawing clothes and studying :: them, but I'm not a frustrated designer," Mrs. Blum said.

"Fashion is always evolution," she rashion is aways evolution, sne-said. "It never comes out of the air. A period of social crisis accelerates change. After a war, fashion usually steps back as people try to pick up the threads of their life before.

"After World War II, Christian Dior's
"New Look" was a kind of Freudian
slip. It satisfied psychological needs at the moment, but it went back 100 years. Society had to settle back for a moment before it picked up the 20th.

century.' A More Mature Look Foreseen

In 1954, Chanel and Balenciaga picked up the threads of the modern era. Ten years later, Courreges, Mary Quant, the rise of blue jeans and the thrift shop look represented a turning against established traditions.

"We're now heading for a cleaner, more put together and more mature look," Mrs. Blum explained. "More mature ture because the young kids don't have the money, so the women who support fashion are the older ones."

Mrs. Blum discounts those who say"; they don't care about fashion.

"Fashion is so close to revealing a person's inner feelings about himself, and everybody seems to hate to lay claim to vanity, people tend to push it away," she observed. "It's really too "close to the quick of the soul, but everybody's involved, except perhaps the shopping bag ladies you see huddled in the street."

The skunk was not very sociable.

A Menagerie Is Just the Place To Take a Break From Shopping

tic cages at Abraham & Straus the other

"Look, the rock is moving!" a small boy exclaimed. And a moment later, Alexander, a

soft. furry, gray prairie dog, which looks rather like a miniature wood-chuck, had stretched himself up to his full eight inches, grabbed what appeared to be a nut, and neatly demolished his lunch. Alexander shares his cage with two

flying squirrels, nocturnal creatures who spend most of the day hidden behind the flower pots. But once in a while they scamper out and take a fly-ing leap through the cage, to the squeals and gasps of onlooking children. The prairie dog and the flying squir-rels are a few of the inhabitants of

this bird and animal menagerie, which is housed in a row of cages in Santa's Forest, the Brooklyn store's Christmas display for children.

There in the dimly lighted make-be-lieve forest, the youngsters have a choice of visiting a black Santa, a white Santa or one for groups, as well as shopping in their very own shop, where everything is under \$5. But the high point of the trip for the swarms of children seems to be

the march past the birds and animals, who can be visited on the fourth floor of the store from 9:30 A.M. to 10 P.M. today, and until 6 P. M. Christmas Eve when the display ends. As they start along the aisle, the chli-dren first see bright-colored pheasants mincing elegantly around a cage where two dun-colored Greek tor-toises—Zorba and Zeida—sleep in the

shadows. Then comes a covey of gray

partridges nestled against one another like so many stuffed pillows. And after

ccidentally mixed with livestock feed in 173 and distributed by Michigan Farm ureau Services. The contamination was of discovered until the spring of 1974. is believed to have infected the food and milk supply in Michigan. The State Health Director, Dr. Maurice

eizen, said that in some cases Medicaid private health insurance would pay in the tests. He also said that infants orn since 1973 to mothers who were sposed to high levels of PBB would be samined in field clinics throughout the are by specialists from three Michigan edical schools.

Dr. Reizen has not told Michigan moth-

s to stop breast feeding their infants.
s'says there is some health risk inlived, but that it is not high. Tests on
rin lamilies who consumed PBB-tainted ept and milk regularly have shown miptions such as weight loss, fatigue, so of hair and aching joints.

76 Are Introduced At Debutante Ball

At the dist annual Debutante Coti-in and Christmas Ball in the Grand dircom at the Waldorf-Astoria last ght 76 young women made their for-a lbows to society.

The evening always a benefit for the wyork infirmary, opened formally 10 o'clock with the debutantes in receiving line headed by Mrs. Rush Kress, honorary charman of the ill, and Mrs. Jean William Bauer and rs. Dugald A. Fletcher, co-chairmen. sisting them were Laura Suzanne micke. Kathleen Howell Fell, Julia B. iddleton and Victoria Earle Roschen, chairmen of the debutante commit-. Later, the debutantes were introced individually from the stage and articipated in the traditional cotillion

gures. Many prefetory dinner parties were eld on the hotel's Starlight Roof, Mr. nd Mrs. John R. Fell Jr. and Mr. and nd Mrs. John R. Fell Jr. and Mr. and frs. Peter Guernsey entertained there is their daughters. Kathleen Fell and girdre Guernsey: Susan Brown Rothen for her daughter. Victoria; Mr. dd Mrs. George Braga and Mr. and shi, Henry B. Middleton for their orginates. Allegra Braga and Julia deleton, and Or, and Mrs. Victor W. illeton, and Dr and Mrs. Victor W. icht for their daughter, Laura.

they don't just fool around with paltry million-dollar jackpots. Capt. Manuel Busta Sanchez will testify to that. Yesterday the army officer emerged as a principal winner of the annual Spanish Christmas lottery, the world's richest, with prizes amounting to \$23 million. The captain was the leading contributor to a lottery share-buying group in the northwestern town of Lugo, and he'll collect a substantial portion of the \$5 million winnings of the group, which had the lucky number 49764. No wonder they call the lottery "El Gordo" (The Fat One).

There were reports circulating in Moscow yesterday that Luis Corvalan, the Chilean Communist Party leader recently flown to the Soviet Union in exchange for the release of Vladimir K. Bukovsky, a Russie dissident, was in a hospital. Latin Americans in Moscow maintained that Mr. Corvalan, who has not been seen publicly in the Soviet Union, was undergoing a medical checkup after three years of imprison-ment in Chile, but other sources would not confirm the reports.

Meanwhile, the official press agency, Tass, denounced Mr. Bukovsky for al-"crimes against Soviet power"

HILTON PLANNING TO MARRY: Conrad Hilton, of the hotel chain Hiltons, at court in Santa Monica, Calif., Tuesday after he took out a license to marry Mary Francis Kelly, a saleswoman for an airline. It will be the fourth marriage for Mr. Hilton and the first for Miss Kelly. He is 87, she is 61.

and referred to him as a "criminal recently expelled from the Soviet Union." He had been in labor camps there since 1972.

Weary of being criticized, criticized, criticized for his alleged failure to have the town's roads properly main-

tained, Mayor Haridoum Movahadi of Shiraz, Iran, went before a city council meeting and emptied a bag of pins, bottlecaps, and bits of metal onto a desk. "With this daily income from city parking meters, I cannot do my job," said the mayor.

ALBIN KREBS

Gloria Whitman Is Married to A. Wickes Rossiter 3d

Gloria Louise Whitman, daughter of Sybil Good of Woodburn, Ore., and Walter H. Whitman of Washington, was married yesterday afternoon to A. Wickes Rossiter 3d, son of Mr. and Mrs. Rossiter of Lloyd Harbor, Hunt-

ington, L. I.
Justice of the Peace Harry Jones of
Weston, Mass., performed the ceremony at the home of the bridegroom's brother and sister-in-law, Mr. and Mrs. Edward V. W. Rossiter of Weston. The bride, a stewardess with American Airlines, attended Washington College and San Francisco State Uni-versity. Her father is with the Energy Research and Development Agency in

Washington.

Mr. Rossiter, an alummis of St.

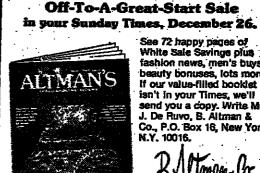

Mark's School, Southboro, Mass., was
graduated in 1970 from Columbia University and is working toward a master's degree at the Babson College
School of Business Administration,
Wellesley, Mass. His father is a retired
vice president of the Morgan Guaranty
This Company Trust Company.

NICKELODEON

THERE'S NO ONE MAKING AMERICAN MOVIES WHO'S MORE INTELLIGENT THAN PETER BOGDANOVICH. He's a wizard with actors... You laugh a lot at 'Nickelodeon.'

NICKELODEO P

"SCLID GOLD...THE PURE MAGIC OF MOVIES. Peter Bogdanovich sent out his valentines early, neatly wrapped up with love and kisses in "NICKELODEON," a fond tribute to the pioneer days of American cinema." — Вписе Williamson, Playboy Magazine

NECKELODEON

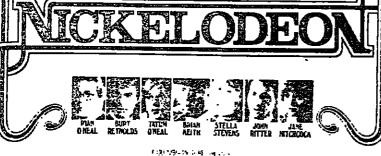

"ONE HELL OF A GOOD TIME ... A PRAT FALL A MINUTE. 'NICKELODEON' is a warm, affectionate pastiche. I especially enjoyed the actors who all have one hell of a good time."

VICKELODEON

"NICKELODEON" is a very pleasant entertainment indeed, replete with a plot that defies description, high and low comedy, charming romance and a clutch of first-rate performances." - Judith Crist, Saturday Figures

MICKELODEON

"COUNT THIS AMONG PETER BOGDANOVICH'S BEST. IT IS A PLEASURE TO WELCOME HIM BACK WITH A WINNER.

RYANO'NEAL BURT REYNOLDS TATUMO'NEAL BRIAN KEITH PETER BOGDANOVICH'S "NICKELODEON"

Music: Jim Hall Leads a Quartet

Jazz Guitarist Is at Hopper's With an Understated Sensitive and Virtuosic Performance

By JOHN S. WILSON

When Jim Hall was playing with the Chico Hamilton Quintet 20 years ago, he was one of the first electric guitarists to get away from the metallic clatter that had been building for 15 years among guitarists who were trying to outplay Charlie Christian, Mr. Hall had roots in Mr. Christian's playing, but he also had a feeling for dynamics, for structure, for tone, for phrsing. Since then he has remained in the forefront of the growing number of guitarists who place sensitivity on at least an equal plane with virtuosity.

At Hopper's, Avenue of the Americas at 11th Street, where he is playing this week and next, Mr. Hall is leading a quartet that is, in mos trespects, as

sensitive, as virtuosic and as smoothly

understated in its approach as he is.

Benny Aronov, his pianist, creates fascinating reflections of Mr. Hall's varying moods—sometimes running long lines that rise and glide like a bird on the wing, at other times playing behind the beat to nudge it along with gentle persuasion or, on Scray Rollins's "St. Thomas." boiling up in a burst of energy to match Mr. Hall's gaily dancing chorded passages.

Sam Jones, on bass, gives Mr. Hall's gaily dancing chorded passages.

Sam Jones, on bass, gives Mr. Hall's close support and, on occasion, creates intricately woven string duets with him. But the drummer, Billy Higgins, tends to be just a bit too heavy for this light-as-air group, although, on his own—on breaks or short solos—he is as imaginative and discerning as the three others.

SATRA CORP. SIGNS ACCORD FOR MOSCOW OLYMPIC TV

The Satra Corporation, which has aphad "signed a protocol calling for longterm cooperation with the U.S.S.R. Olympic Organizing Committee."

Satra succeeded after NBC, CBS and BC went to Moscow to bargain individually with the Soviet group and were upset by the still-undisclosed high price for the rights. They returned last weekend to prepare a pooling arrangement for coverage of the Summer Games.

Ara Oztemel, president of Satra, an international trading company with head-quarters at 475 Park Avenue South, is-

sued a statement yesterday instead of holding a news conference, as had been announced earlier.

The statement said Satra had been for 25 years, "a major factor in U.S./U.S.S.R. parently won the rights to televise the trade, including the entertainment in-1980 Olympics from Moscow to American dustry. Our films and special-projects audiences, confirmed yesterday that it division was responsible for bringing Soviet films to the United States, including the Academy Award-winning War

and Peace."

No mention was made of who Satra's two backers were.

Mr. Oztemel said John J. Kapstein, president of Satra Films and Special Projects, and Carl M. Longley Jr., both of whom signed the agreement with the Soviet committee, would return to New York shortly, "and we will provide further details concerning the protocol at a later date."

By VINCENT CANBY

In May 1939 the Hamburg-America liner St. Louis sailed from Hamburg headed for Havana, car-rying 937 Jews who had paid Hit-ler's government dearly in the hope ler's government dearly in the hope of finding refuge from the Nazis in Cuba. Hitler's strategy was simple: if, indeed, the Cuban Government accepted the refugees (and there was doubt about that, even when they sailed), then Germany was well rid of them and a little bit richer, too.

If Cuba did not accept them, and if the United States and other countries followed suit, then Hitler whould have proven his point that

would have proven his point that Jews were unwanted by the very countries that were so loudly criticizing his anti-Semitic policies while proclaiming their own hu-manitarian principles.

The story of that voyage is a harrowing footnote to the history of World War II. As carefully researched by Gordon Thomas and Max Morgan Witts in their book "The Voyage of the Danned." it is, further, a revealing commentary on how opportunism could dictate policies of friendly governments, including that of the United States.

Faye Dunaway, above, and Lee Grant Cast in a movie that is worse than merely boring.

It also seems to be excellent source material for a film, though you'd never know it from the alteryou'd never know it from the alternately sluggish and hysterical movie that opened at three New York theaters yesterday. Stuart Rosenberg, the director, and Steven Shagan and David Butler, who wrote the screenplay, appear to have been attracted to the project because of the almost limit-

less ways in which they could make history look like a bed, ally star movie to start with, they use a dozen or so too many stories even to fit conveniently into a running time inflated to 150 minutes.

Their touch is sensitively banal, that they turn potentially moving episodes into second-rate meiodrama, while adding some third-rate melodramatics of their town; including a Romeo-and-duliet suicide pact. It's the kind of movie the which someone says, quite serious. which someone says, quite seriously, "Vee Chermans har hallvays hon time" (We Germans are always on time).

The cast includes good actors and bad, but even the good actors are inclined to be await Faye Dunaway and Oskar Werner are all right as a rather posh Berlin doctor and his wife who are carrying their marital problems into exile intact. They travel first-class. Malcolm McDowell plays the role of a cabin boy who appears to be old enough to qualify for Social Security.
When we weren't looking, his
youth fied, Max von Sydow survives with his reputation under vives with his reputation undamaged as the liner's humane skipper, but Katharine Ross, who looks like a Rose Bowl parade queen, is a joke as a humane Havana whore.

Orson Welles, James Mason, Denholm Electron and Jose Ferrer are on and off faster than it takes to type this sentence, while Lee Grant, Julie Harris, Wenny filler and Luther Adler might wish they had been so lucky.

Movies as clumsy, tasteless and self-righteous as this are worse than merely boring. By expliciting the tragedies of real people, some wildly fictionalized, "The Voyage of the Damned" attempts to turn them to profit without giving them any measure of the respect that

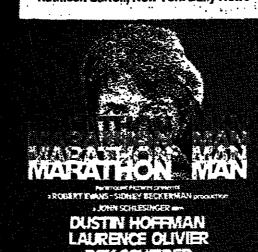

"Voyage of The Damned," which has been rated PG ("parental gridance suggested", contains nothing of an even mildly suggestive nature except the title, which might mislead children to think they are about to see a disaster film—and a shill who wants to see a disaster. about to see a disaster film and a child who wants to see a disaster film and sees this, instead, will be an angry child.

By RICHARD EDER

There's a basic weakness in the movie business' assumption that if you have a big suspense or action picture with lots of movement and thrills, you don't need writing or acting or character in it.

Because what happens? The climax comes. Good and bad are stalking each other around some monstrous hangar, Zoroastrian rest-home or abandoned maple-sugar factory. Music. Suspenseful lighting. Tension. And a face peers around the corner. But by this time, who cares about the face? It might as well be Dorald Duck's.

Money, the big name of Clint Eastwood, a lot of gore and howl-ing sirens and the urge to rail at various liberal notions are not enough to make even a passable movie out of "The Enforcer."

The movie, which opened yester-day at the Criterion and other theaters, is the third in the series— "Dirty Harry" and "Magnum Force" were the first two—about Force" a mean though righteous San Fran-cisco cop. It has been billed as "the dirtiest Harry of them all," but it is simply the surliest. It is the same barroom drunk railing at weirdos and pinkos, and four or five glasses farther into his theme.

The movie begins with the killing of two gas-company drivers by the Revolutionary Strike Force. The half-dozen young people in the force need the gas truck to break into an arms depot guarded by one
(1) old watchman. They kill him

these days-enough to sell out his

day showed all the reasons his

admirers hold him dear. It also showed once again why others find

Mr. Manilow is a pop and ballad

singer who emerged three years

ago. Before that he had had a checkered career of New York

studio music-making first coming

to prominence as Bette Midler's

His musical skills are what strike

one first—a firmly produced pleas-

antly malicable baritone with just

the right hint of a catch in the

throat. He plays the piano with

arranger and bandleader and com-

poses tuneful and or catchy songs

He also has a stage personality

it so easy to resist him.

music director.

with facility.

to kidnap the mayor, whom they hold for ransom. The killings are unnecessary, but this is explained by the fact that the leader—who is really in it for the money—is a homicidal madman. We know this because his jaws quiver when he stabs people.

Out comes Harry Callahan (Mr. Eastwood) of the homicide divi-sion. That is, he's sometimes of the homicide division. He starts out by driving his car through the win-dow of a liquor store to break up a stickup and kills the three gunmen. He is busted to personnel for roughness, reinstated when the Revolutionary Strike Force begins work, is busied again when he goes after them too vigorously, but manages to get them all anyway when they hole up in what used to be Alcatraz prison.

The action is reasonably fast and competently photographed. The picture doesn't exactly drag. But it is maggoty with non-ideas. These non-ideas come in the form of a whole gallery of corrupt or foolish liberal types who interfere with Harry's mission.

There is a progressive priest who shelters the assault gang until one of them, dressed as a nun, tries to shoot Harry. There is a weaselly police captain who says Harry's shooting the liquor-store holdup men was offensive to the city's minorities. "The hoods, you mean," Harry says brightly. "They're Americans, too," the captain an-

That—the movie tells us—is how knee-jerk liberals think. The politicians are corrupt and pathetically eager to appease the thugs/radicals/ pornographers.
Feminism is also some kind of

conspiracy. Harry is reluctantly saddled with a woman police officer as his partner. Played by Tyne Daly, who is good hearted and

Clint Eastwood and Tyne Daly Lots of non-ideas

plucky, but she is also a whole shopping list of alleged fermine

She runs with her arms flapping all anyhow, holds a pistol as if it were a chamberpot, asks stupid questions, goes around with her mouth gaping and talks in a high-pitched quack. That is Miss Daly peering around a corner in the climactic scene, not Donald Duck. But, as stated earlier, it might as

that appeals mightily to many. He works in the costuming and stage accourrements of a Las Vegas midmiddle backup singer ostentatious-ly chewing bubble gum, periodic remarks about "trash" and the

die-of-the-road schlock entertainer, which is what he basically is. But he undercuts the limp awfulness of that genre in two ways. One is the continual references to New York-camp "trash"—his

Barry Manilow has a lot of fans like. The other is his own manic

Barry Manilow Sings Ballads

And Pop in 2-Week Run at Uris

humbleness. Mr. Manilow works two-week run at the Uris Theater hard to project the image of the in advance. And Mr. Manilow's awkward nice guy. Maybe he is opening-night performance. Tues- just that, but by now it's become so part of his act, and his act includes so many defensive artificialities, that it's hard to say.

> Indeed, the main trouble with Mr. Manilow's show is the very impossibility of knowing what is real and what is calculation. He is full of talent, especially for sentimental ballads, and throughout his program there are songs that begin in a geniunely affecting way -"Why Don't We Live Together," "This One's for You," "Mandy," and many more. But invariably Mr. Manilow builds these wispy bits

of sentiment into raucous, grandiose production numbers, and he invariably vulgarizes them as a re-

If he is deliberately trying to appeal to a sensibility that likes such hollow rhetoric, then so be it; he's sold lots of records. But if that's. simply the way he likes to hear his music, then perhaps he should reconsider his gifts. A lovely melody and vulnerable sentiments don't need hysteria to convey their charms; in fact they positively wither before such an onslaught. Taste is always ultimately subjec-tive and can't be legislated Still tive, and can't be legislated. Still, one wishes Mr. Manilow would get

By ROBERT PALMER

Noah Howard, who is performing through tonight at Ali's Aliey, 77 Greene Street, in SoHo, draws an appealingly fat, warm sound from his alto saxophone. The music he is playing now is more lyrical than the fiercely energetic music he played before leaving New York for Europe in 1972, and it gives his sound plenty of opportunity to shine through.

his sound pienty or opportunity to shine through.

Mr. Howard's sound and the original themes he is performing are the most striking aspects of his first New York engagement since 1973. As an improviser, the saxophonist still seems to be synthe sizing elements from the work of Albert Ayler and John Coltrane, his two principal inspirations of the 1980's. He has filtered his infulences through a personal vocabu-lary of phrasing, and his solos have become much briefer and more terse, but the impact of the mas-

ters is still much in evidence. The quintet Mr. Howard has as-sembled has a bright sound and the empathy and balance of a working group. Oliver Johnson, a drummer from San Francisco who has been living in Europe for sever-al years and is rarely heard here, impresses with the precision of his dynamics and the drama and flair of his solos. Dona Summers gets or his some Dona summers gets a brilliant, ringing sound from the piano, and Bob Reid is a firm bassist. Ted Daniel, who is usually heard in less lyrical contexts, contributes fire and a sure sense of pacing on the trumpet.

THE NEW YORK TIMES, THURSDAY, DECEMBER 23, 1976

ance: Auslander and Warshaw

oreographers Present Works at the Terra Firma -Marian Sarach Gives Fine Performance

es by Rose Auslander and Roselle shaw at the Terra Firma studio by evening. Their works never venbeyond the most elementary level were more like composition exer-than finished works ready for

c display. ss Sarach is a performer of eccenmovement accents and offbeat our whose favorite chereographic cts are women of similar dispos.

Her portait of the film star in
bo Waltz" was both coy and asve, tipping back and forth between eful strides and open-armed gathernotions to her audience and a repeer beneath a delicately up-

e costuming was equally split be n the assertive and the secretive represented heself in an attentionng red dress, but wore a conceal-plack slouch hat as well. r new "The Tale Itself" dealt with man in a dress that suggested ha-pants and also a Victorian plamcostume. She posed artfully et and looked apprehensive at darting away from something menaced her narcissistic gallop. It humorous froth tinged with a

Come spend Christmas with us in the 18th century. In a perfectly restored mansion, circa 1806, on 36 landscaped acres overlooking the Hudson. Inside,

elegant architecture surrounds priceless antique furnishings, rare books. Arranged just as they were when the Dyckman family were its occupants so very long ago. Bring someone you love to Boscobel this Holi-

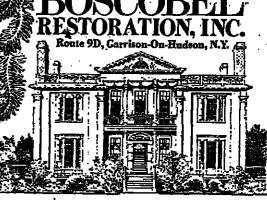

day Season for one of our traditional candlelight tours. From December 26th to 28th, our well-versed hostesses will take you back through two centuries to explain and recreate the lifestyle of post-Revolutionary America. From one exquisite room to another, the soft glow of amber light warms polished woods. Reflects in silver and mirrors.

Sparkles in crystal. You'll sip mulled cider served with spicy fruit cake. Listen to music of the period by guest musicians. And share a lovely experience. At Boscobel. Where tradition has been so thoughtfully preserved.

Boscobel is easy to reach, eight miles north of Bear Mountain Bridge on Rte. 9D. Open daily except Tuesday from 9:30 to 4 p.m. Admission for candlelight tours: adults \$2.00, children \$1.00. Callfor information (914) CO 5-3638, or in N.Y. City LO 2-7444. Closed Christmas.

SPECIAL HOLIDAY HOURS SUNDAY, December 26 and MONDAY, December 27-Open 9:30 a.m. to 4 p.m. daily. 5 p.m. to 7 p.m. for... candlelight tour

TUESDAY, December 28 Open 5 p.m. to 7 p.m. only for candlelight four ...

CARNEGIE HALL TOMORROW, FRIDAY, DECEMBER 24

Auspices: The Camegle Hall Corporation, New School Concerts, Camegie Hall-Jounesses Musicales and the Department of Cultural Affairs of the City of New York.

Stage: 'Your Arms Too Short'

By CLIVE BARNES The joyous sound of gospel singing filled the Lyceum Theater last night, and should be filling it for some time to come. It was the opening of Vinnette Carroll's "Your Arms Too Short to Box With God," and it is a black celebration according to the Book of

Miss Carroll earlier conceived the long-running musical "Don't Bother Me, I Can't Cope," and something of the same energy runs through this present show. But "Your Arms Too Short" has more spirit, more sense of exaltation. It is funny and fervent—an unusual combination—and it has an onrushing vitality that practically pins you to

The musical is set in a chapel. It is very simple — stylized stained glass windows at the back, arches, seats at the side, the faint suggestion of an altar. The cast enter dressed in red and cream robes that look vaguly litur-gical. They are led by a minister, in a longer robe, who announces that "We Are Going to Have a Good Time," and he is going to tell a story about a man who lived nearly 2,000 years ago.

What follows is the Christ story from Palm Sunday, through the Passion in the Garden, the Betrayal, the Trial, to the Crucifixion and the Resurrection. The story is acted out by, as it were, the congregation who exchange their original robes for biblical garb, and become followers. Pharisees, and the ordinary people of Jerusalem. There is plenty of reverence in the piece, but also an abundance of cheerful folk humor. There are as many rogues as saints in this story, probably more. To an extent the musical may be compared with that so-called rock-opera "Jesus Christ Superstar," and some of the elements are indeed similar. But the effect is totally different. In the first place gospel singing, with all its musical riches, is peculiarly appro-priate here, and whereas the flashy Broadway musical was all trash and glitter, Miss Carroll has given her work something of the emblematic simplicity of a medieval morality play.

After the story and the transfiguration of Christ, the company resume

Mozart Given Due By Greenwich House

By PETER G. DAVIS The Greenwich House Orchestra traveled uptown from its home at the Greenwich House Music School on Barrow Street Monday night for a concert at Carnegie Recital Hall. The music was by Mozart and the orchestra made the visit more than worthwhile by playing every item on the program with crackling vitality and polished techni-cal precision under the expert direction of its conductor, Michael Bartos. Numbering just under 30 players, the

orchestra was exactly the right size for the music at hand, Symphonies No. 29 and 33, the Violin Concerto No. 4 and the Motet "Exsultate, jubilate." The live according of Campoin Perial Ivil live acoustics of Carnegie Recita: Hall would have exposed every intonational and ensemble lapse in a lesser group, but these young musicians had nothing to fear on this score. Their overall sound was consistently smooth, fullbodied and evenly balanced.

Benjamin Hudson, a violinist on the school's faculty, was the soloist in the concerto. His reading, like that of the orchestra's, was neatly honed, warmly committed and alert to every expres-sive turn in the music. In the motet, Patricia Ernest tossed off the coloraa sweet, securely positioned soprano.

Aside from the general technical ex-cellence of the performers, they exuded an agreeably infectious spirit, obviously the players were enjoying them-selves every bit as much as the audi-

The Cast THE CAST

YOUR ARMS TOO SHORT TO SOX WITH GOD. Concaved from the Book of Maritime and directed by Vinnotte Carroll; music and tyrics by Alox Brootrons; additional music and tyrics by Alox Brootrons; additional music and tyrics by Milcki Grant; settines and consumes by William Schroder; settine supervisor, Malchael J. Horose; lighting by Gilbest V. Hems-ley, Jr.; orchestrations and dance music by H. B. Barnum; choral arrangements and direction by R. Barnum; choral arrangements and direction by Chapmen; Roberts; choroserably by Tailey Beatity; production; store mander, Rolls Smokert, Presented by Prankley Heaviti and the Shubert Organization in association with Theater Now Inc. At the Lycsum Theater, 149 West 45th Street.

WITH: Storme Bev. Clinden Dericks-Carroll; Shatta Elits, Dalores Hall, Storker Perryman, William Rearts Jr., Malchael Gray, Carlett Hall, Bobby Hill, Lidell Jackson, Etina Krider, Laon Weshington and Marilyn Windbush.

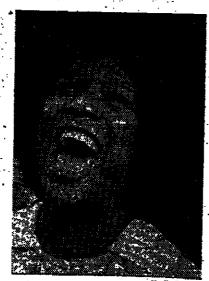

their chapel robes, and sing of the glory of God, ending with a tribute to the gospel singers of the past, starting naturally enough with Mahalia Jackson and finishing, surprisingly but convincingly, with Louis Armstrong.

I first saw "Your Arms Too Short to Box With God" in a slightly different version in a Renaissance chapel in Spo-leto, Italy. Miss Carroll had developed the show with her Urban Arts Corps for the 1975 Spoleto Festival. It was a festive occasion then and in the present version, produced originally by the Ford's Theater in Washignton, it is a festive occasion now.

Part of the show's infectious happi-ness derives from the music. The early music and lyrics were then all—if memory serves—by Alex Bradford, who was also the lead singer. Now these have been supplemented with additional music and lyncs by Micki Grant. They all meld together so smoothly that I would challenge anyone to say which was which. Another very strong

which was which. Another very strong aspect of the evening is the choreography by Talley Bearty.

There is dancing throughout, but the two important dancing roles are Jesus, given with a gentle dignity by Stanley Perryman, and a virtuoso solo showing the agonized guilt of Judas that was vividly danced by the former

Delores Hall Stops the show

Alvin Ailey principal Hector Jaime

Mercado. The whole cast is as lively as a revival meeting that has just revived. There is some great singing and acting—for here the two are one and the same—in this lovely show, I have to same—in this lovely show, I have to mention Delores Hall, who stops the show with "I Love You So Much Jesus," and is tremendous throughout. But all the others, including Salome Bey, Sheila Ellis, William Hardy Jr. (whose voice has the most surprising and beautiful range) and Clinton Derricks-Carroll, who brings an impressive, somewhat sardonic presence to the Minister, are just fine.

Miss Carroll has directed the show with both speed and fluidity, so that it seems as much a ritual as anything else, and the simple setting and imaginative costumes by William Schröder add to the general effect, as does the lighting by Gilbert V. Hamsley Jr.

The result is a surge of gospel, of music, faith, passion and love. Never forgetting a little ironic humor on the way. Go and see it. You may not be converted but you should be deconverted but you should be deconverted but you may not be

way. Go and see it. You may not be converted, but you should be enchanted.

Music and Films by Phil Niblock

Phill Niblock's music and films are concerned with detail and simplicity. In the music, adjacent tones are amplified and extended in time, so that the acoustical phenomenon of their beat frequencies, heard as a kind of pulsing or flutter, captures the attention. In the films, farmers work their land, suns rise and set, Mexican Indians weave and harvest and wash their clothes in rivers, and bees dance atop flowers. The pace of the images seems to move in rhythmic cycles, and again

a pulsing phenomenon becomes the focus of attention.

On Tuesday, Mr. Niblock presented four hours of music and film "for the first day of winter" at his Experimental Intermedia Foundation, 224 Centre Street. The music and the film images pulsed at their own pace, and no attempt was made to synchronize the

One became aware of the discrete mix of the music, which broke the composer's dissonant clusters down by placing each component frequency on a different speaker, so that the acoustical beating seemed to take place in the center of the room. One became engrossed in the movement of a weaver's hands, lost interest in a harvesting scene, or marveled at a manic se-ries of speeded-up sunsets. Mr. Niblock has commented that he

is seeking a mix of sound and image patterns "devoid of all standard narrative and emotional elements." One wanders through his presentations without being able to find a center or focal point, and presumably that is precisely what Mr. Niblock has in mind.

Sparks Band Now Hard-Rocking

The Mael brothers, who are the basis of a band called Sparks, are not trying to hide their current shift of direction. The band first emerged a couple of years ago as one of the cleverest, most febrile of all the British progressive rock bands (even though Ron and Rus-sell Mael come from Los Angeles).

The original Sparks was genuinely a Outilt, but it manic hrittleness and near-hysterio could never assure the brothers of more than a novelty success. In addition, the group's stage shows were real charmers, built around the clever contrast between Russell's cute, boyish pop-star cavortings and Ron's sly, emaciated, Hitler-Chaplin

Dec. 30 and may be seen today from 11 A.M. to 8 P.M., Friday and Saturday

from 11 A.M. to 5 P.M. and Monday through Thursday from 11 A.M. to 8 P.M. Admission is free. Information is

OVER THERE-Parhaps it's off the

Christmas track, although there is a

museum store with unique gift possibil-ities, but the Brooklyn Museum might

be a worthwhile stop today in order to view its exhibition of more than 150

The museum first showed African objects as works of art in 1923. In those days, these objects were customarily regarded as anthropological speciment which of course the course

mens, which, of course, they were. But when Picasso, Matisse and Modigliani began to look at African masks and

figures as works of art, the art world and eventually the museum world fol-

lowed.

In renovated galleries, the Brooklyn Museum has installed wood, iron, copper, brass and terra-cotta objects and sculpture from the sub-Saharan region.

The museum is at 188 Eastern Parkway and is open Wednesdays through Saturdays from 10 A.M. to 5 P.M. and Sundays from noon to 5 P.M. Admission is free. For information, call 638-5000.

looks and hypnotically zombie-ish piano playing.

Now Sparks is back, having com-pleted a two-night run at the Bottom Line last night. The Maels are based back in California, have a new all-American lineup behind them and a new record label. Their latest record is called "Big Beat," and the title tells the tale Sparks is now a hard-rock-

ing guitar-oriented group, and Russellis more the focus than ever.

They still do some old songs, but the performances sound a little perfunctory, compared with the old band's versions. Ron still looks most amusing, but he seems too often tangential. Perhaps Sparks will now attain the mass success the Maeis clearly want. But they'll do it at the price of much of their old individuality, and that seems sad.

Amor Artis Presents

JOHN ROCKWELL

Vivaldi With Verve By RAYMOND ERICSON

If nothing else, Vivaldi's music has an energy and momentum that give it a lively, celebratory air. It made the program that was devoted to the composer's works in Alice Tully Hall on Monday night decidedly festive and suitable to the Advent season. It was given by the Amor Artis Chorale and Orchestra, under the direction of Johannes Somary, and it was the first of three they will present in the hall this season.

The concert was neatly balanced be-tween three concertos and three choral works. The Concerto in C for Two Trumpets and the Concerto in A minor for Piccolo Recorder provided brilliant for Piccolo Recorder provided brilliant virtuoso roles for instrumentalists who took full advantage of them: Martin Berinbaum and his colleague, Edward Carroll, on trumpets, and Daniel Waitzman on the recorder. (The indispensable Mr. Berinbaum left after his number, the first of the evening, and dashed to the adjacent Avery Fisher Hall to take part in a "Messiah" performance there.) Mr. Waitzman's facility with what sounds like a penny whistle was nothing short of miraculous.

The Concerto in G minor ("For the

nothing short of miraculous.

The Concerto in G minor ("For the Dresden Orchestra"), with its poignant oboe and bassoon duet in the slow movement, was also played. The familiar "Gloria," an infrequently heard "Lauda Jerusalem" and "Dixit Dominus" were the choral entries. The last, scored for five soloists, two choruses and two orchestras, has some unusual writing for the choruses as well as writing for the choruses, as well as a splendid duet for two sopranos, and some fine effects for the instrumental

Mr. Somary conducted stylish and stylistically right performances, and his various forces sang and played very well. There was an occasional faltering in the orchestra or a weakly sung line in the chorus, but on the whole the work was shipshape. Jane Gunter and Peggy Pruett were the two excellent soprano soloists, and Jeffrey Dooley was the skillful alto soloist. Doug-las Perry, tenor, and Richard Eikenber-ry, bass-baritone, handled their small assignments smoothly.

HEARINGS ARE BEGUN IN PSYCHIATRIST CASE

Professional Conduct at Issue as a Medical Panel Considers Whether to Revoke His License

By LAURIE JOHNSTON Hearings on the revocation of the medical licenseof Dr. Martin Shepard, a psychiatrist whose books include "Games Analysis Plays" and "The Love Treat-ment," were begun yesterday by the State Board for Medicine's committee on proessional conduct.

One charge is that Dr. Shepard, according to his 1972 book, "A Psychiatrist's Head," had sexual intercourse with one or more of his patients. The second charge is that, even if the book were "a work of fiction," Dr. Shepard's claim of sexual relations as a part of treatment brought "disrepute and ridicule" to the medical profession and to psychiatry in

In an interview before the hearing, the 42-year-old Dr. Shepard called the language of the charges "a 'Catch-22'they're saying, 'If it's true, you won't be allowed to practice and if it's fiction, you won't be allowed to practice." book, Dr. Shephard said, was "about a summer of sexual exploration and my own erotic life." Some of those who "helped with the book," he said, were from Anthos encounter groups he had conducted. "I was sleeping with a lot of people," Dr. Shepard told the interviewer, "but I didn't consider them patients."

He said his swansong to psychiatric practice had been "The Do it-Yourself Psychotherapy Book," published in 1973, and that he now considered himself a

Debate Over Press Admission

As witnesses for the hearing, Dr. Shepard had assembled nearly 20 friends, expatients and associates, including Dean William T. Burke of Southampton College, where Dr. Shepard's latest course is on "Deafh." Most of the witnesses were unheard when the hearing was adjourned to Feb. 18 after the five-physician panel had debated lengthiy over whether to exclude the prace. exclude the press.

This is done customarily in professionalconduct hearings to protect the accused, but Dr. Shepard had waived the right in favor of an opening hearing. The panel, which included one psychiatrist, voted unanimously not to admit the press.

Dr. Shepard, a former resident of Nyack, N.Y., appeared with his wife, the former Judy Kercheval, an actress. The couple now live in Sagaponack, East Hampton, with two children of each by

former marriages.

The tall, slim, dark-haired psychiatrist wore blue jeans with a green cotton kurta shirt from India and a neck pendant he identified as the Tibetan character for the syllable "OM," use in meditation.

the syllable "OM," use in meditation.

A graduate of New York University and its medical school, Dr. Shepard spent 1963-64 as chief psychiatric resident of Mt. Sinai Hospital. After six years of training at the William Alanson White Institute of Psychiatry here, Dr. Shepard said, he was notified following the publication of "Games Analysts Play" that he would not neceive his certificate would not receive his certificate.
Robert S. Asher, director of the divi-

sion on professional conduct, refused to indicate whether the original complaint had been initiated within the medical or chiatric profession.

Mr. Asher said that Dr. Renatus S. Har-Mr. Asher said that Dr. Renatus S. Hartogs had been severed from his medical license at this month's meeting of the Board of Regents. Dr. Hartogs lost a malpractice suit to a patient who said he had induced her into a sexual relationship as part of her psychotherapy. Mr. Asher said unprofessional-conduct charges had been brought and that Dr. Hartogs, saying he could not defend himself to the Board of Regents, resigned his license.

Investigation Agency Bids Governor Remove Sheriff In Dutchess Ticket-Fixing

ALBANY, Dec. 22 (AP)-Th New York State Commission of Investigation has recommended the dismissal of the Dutchess County sheriff, Lawrence Quinlan, following testimony by sheriff's deputies that he had criminal cases dismissed and traffic tickets fixed for "political and per sonal motives."

In a letter to Governor Carey, the commission chairman, David W. Brown, asked the Governor to act-swiftly and dismiss Sheriff Quinlan, who has been sheriff for 16 years. Sheriff Quinlan was recently removed from his job as jail administrator after a Federal judge ruled that he had violated a court order to improve conditions at the facility. How-ever, he was allowed to continue as sher-iff.

A spokesman for Governor Carey said the Governor had no immediate comment.
The state has been investigating Mr.
Quinlan's supervision of the county facility for more than a year.

Letter Cites Testimony

The letter, whose contents were released by the commission today, refarred throughout to the testimony at hearings held by the commission last week on the Sheriff's Department. The letter said: "Sworn testimony was presented at the

"Sworn testimony was presented at the public hearings by present and former members of the Sheriff's Department that Sheriff Quinlan personally interdicted the processing of criminal and traffic cases and that such intervention was for the purpose of, and succeeded in, terminating such proceedings."

Woman With Hands Tied

testimony, was regular, not rare, and the killing of driving-while-intoxicated cases or traffic tickets was almost invariably a unilateral act of the sheriff or his de-

or traffic tickets was almost invariably a unilateral act of the sheriff or his designee without the knowledge or approval of the D. A. or the court."

During the hearings, a secretary in the department testified that she was instructed to destroy all original traffic reports filed in 1973, 1974 and 1975. She said that she could not remember who instructed her to take the action, but that she had done so.

REMEMBER THE NEEDIEST!

Children Describe Attack

A 29-year-old woman, her hands tied the fire erupted. These witnesses in three children of the dead woman ard, 10; Leonaore, 9, and Vanessa police reported.

The body of the victim, Rose Spencer, was 4ying face down in a rear bedroom at 440 Beach 54th Street when the fire men arrived at 3:45 A.M., according to a knife in his hand.

About New York

Action in the Afternoon

By FRANCIS X. CLINES

It is midday in Manhattan, and a new shooter emerges among the group of businessmen at the craps table, a man with a little checked fedora who. nervously shifts his cigar from one sideof his mouth to the other and ruffles a stack of \$25 chips.

It is illegal, of course, but the Garment Center Jewish Congregation needs funds, and so invites the public in every Thursday to gamble—for money, the best-known variation of mammon's theme in a hall at 40th Street and Seventh Avenue known, appropriately enough, as the Brotherhood in Action building. It is happening again today, far from Reno and Atlantic City, right here in a city as officially innocent is Groupes Connect innocent as Grovers Corners.

"Coming out" shouts the craps banker to the other bettors as the man with a fedora throws the dice down the table and rolls a double three. "Mark the six!" says the banker, emphasizing for side bettors the numerical point that the man with fedora needs next to win. He rolls a seven, a natural loser, and he grouns and throws his cigar away as if it is as stale as the dice.

Because of the mortgage, it is not enough to worship at the center Money. must be raised, and the traditional gambits do not work well. "Imagine trying to hold the usual

synagogue rummage sale in the gar-ment district?" one amateur croupler asks. "Anything you offer the salesmen they get cheaper wholesale."

What the center offers is a Las Vegas Day, with two dice tables and a dozen card tables, the daytime version of the weekend Las Vegas Nights of gambling being offered back in numerous neighbeing offered back in numerous neigh-borhood synagogues and churches. They are illegal, too, but in February a new state law granting legal status and mandating regulation goes into ef-fect, and in the meantime, the authori-ties are tolerant of all the early gam-

in the city, the official gambling czar will be a czarina, Elinor Guggenheimer, Commissioner of Consumer Affairs. She says she has been hearing of some scarey angles that may be attempted, scarey angles that may be attempted, such as reports of "born again" professional gamblers already joining churches and temples because the new law tolerates only religious amateurs running the tables, and no outside professionals professionals.

professionals.

Her inspectors will try to spot that, she promises, but there are a number of other aspects of the law that trouble her and the charity and religious organizations that want to sponsor profitable games under the new law. For example, once the law is in effect, there will be a limit of \$1,000 as the largest amount in total payoffs that any one amount in total payoffs that any one type of game can make in the course of a day or evening no matter how many tables feature that game.

Aside from the bookkeeper's night-

mare of trying to enforce that ment, the Commissioner and question whether this is realig rent games attract 600 and m blers a night and the payoffs to quite easily, producing or profits in the process for the sp

And the salesmen who pi wheeled sample cases at the c today—the only sort of "high in sight at the garment "Actio-may find it disappointing of February, no poker playing permitted. The law wants gar compete only against the h sponsoring agent licensed by ment, and not among one a milieu where cardsharks can and fleece the innocent.

Bridge: Individual Competition Sho A Mild Increase in Populari

By ALAN TRUSCOIT

The individual championship, the Cinderella of tournament play, may be on its way to a mild renaissance. At the New York Hilton Hotel last Friday, there were 104 contestants in the regional individual, organized in parallel with the mixed pairs.

There certainly will be a big field in the Boston individual, scheduled at the beginning of January. And the Blue Ribbon individual, the latest addition

Ribbon individual, the latest addition to the New York calendar, is arousing considerable interest here.

When play begins at the Manhattan Club, 228 West 71st Street, on Feb. 4, 36 top-ranked experts will battle through four sessions, playing three deals with each of the others. Most of the players will have qualified thanks to their performances in New York tournaments in 1976. Some have already qualified as former internationalists.

Some Experts Unavailable

Most of the experts with automatic eligibility who are still active in the game have accepted invitations to play, but these will be some absentees for purely geographic reasons: Lee Hazen will be in Florida, Howard Schenken in California, Bill Grieve in Europe, and B. Jay Becker somewhere in the South Atlantic lecturing aboard the S.S. Rotterdem

The absence of Becker is unfortunate.

The absence of Becker is unfortunate. since he is one of the only two living players who are two-time winners of the old masters individual, a highly prestigious event in the 30's and 40's. The other is Morrie Elis, who has accepted a special invitation to compete. The honor of the Becker family will be upheld in the individual by B. Jay's son Michael, who faced difficult problems on the diagramed deal from the open pairs final played here last Sainrday. He sat South, and arrived in three no-trump after his partner had responded in diamonds and then jumped in that suit. This jump was clearly forcing, but some partnerships would consider it no more than invitational.

West led a club, allowing the declarer

West led a club, allowing the declarer to score with the jack in dummy. In the interests of preserving communications, he then led a low spade to his queen. Unfortunately, this lost to a singleton king with West, the only situation in

By Margaret Atwood. 245 with her rage when Jarvis brings another woman into their home. More jealousy, it is difficult to feel sympathy with her rage when Jarvis brings another woman into their home. Moreover, Miss Weldon offers at least some sort of literal explanation for Madeleine's postrumous power to make trouble for flose who survive her:
"Some spurt of power coming from God knows where provided more than enough energy to transcend a perfectly commonplace death." The combination of our lack of sympathy for Madeleine and our incredulity at this "spurt of power from God knows where" is suffi-cient to undermine all the many intelligent things that Miss Weldon has done in "Remember Me," and makes us take it less than completely seriously.

More Repressed Rage

The-rage is more repressed in Margaret Atwood's "Lady Oracle," the third novel by a Canadian writer who has published seven volumes of poetry, as well as an earlier novel, "Surfacing," that generated considerable power until it fell apart at the end. Repressed rage it fell apart at the end. Repressed rage prompts Joan Foster to eat compulsively and grow hugely fat in response to her mother's seeming lack of love for her. It fractures her self-awareness, forcing her to lead a triple life as the docile wife of a young Canadian radical, the mistress of the "con-create" poet who calls himself "the Royal Porcupine," and the secret author not only of successful costome Gothics, but also of a hest-felling hook of autometic of successful costume Gothics, but also of a best-selling book of automatic writing called "Lady Oracle." And it eventually leads Ioan to take her own death and flee to a town outside of Rome, which is where we find her hiding at the beginning of the novel, about to relate the story of how she got there.

Indeed, repressed rage may even account for why Joan tells her story so entertainingly, for sublimation of anger is as good an explanation as any for the wiyness of Joan's view of herself and the energy of her satire.

unhappily, Miss Atwood, like Miss Weldon, depends to a degree on the realism of her plot, and it is here that her book turns sour. In order for us to understand why Joan must fake her own death, we have to sympathize with own death, we have a sympanize which her fear that her husband will find out what her childhood was like. But Joan has described this childhood so amusingly that it is impossible for us to share her view of it as a fearful secret. It is as if only she can perceive the extreme degree of her rage; thus, only she can fear the consequences of its bursting out. As a result, half the plot of "Lady Oracle" finally comes to seem

Of course, as I've said, it may be that this sort of rage requires no mo-tive or elaboration; it may be recog-nizable to all but me as a condition of contemporary life amounting almost to a sex-linked characteristic. Still, in reading both these novels, I failed to understand it. So I must regard both these authors as having failed to properly explain it.

New York City and State Held Lax On 'Medicaid Mills' in a U.S. Audit

By RONALD SMOTHERS

forts to reot out abuse and fraud in "Medicaid mills" in New York City accuses both the city and state of laxness, it was learned yesterday. At the same its Department of Social Services, which time, a similar report by a joint New processes Medicaid bills.

York State legislative commission admonishes the state to not "interfere" with the city's efforts.

News of the two studies comes a day

ing several doctors who lease space from its owner. The operation of such facilities has been the focus of recent findings of excessive billing, unnecessary tests for which the Medicaid program is charged, and chabby and apparature surroundings. and shabby and unsanitary surroundings.
Stafe officials charged that the city's
Department of Health, which has had the
job of investigating these facilities under
contract with the state in the 10 years since the Medicaid program began, was "inefficient," had failed to develop any systematic approach to attacking fraud and had done poorly in extracting restitu-tion from guilty doctors.

the major impediment in developing an effective enforcement effort

A preliminary audit by the Department | A state official, on the other hand, read-Health, Education and Welfare of ef- ing from a copy of the draft study, point-

fices of the Federal agency said that the report had found that neither the city News of the two studies comes a day nor the state currently had the capacity after State Department of Health officials to discover fraud and successfully prosecute offending doctors and "Medicaid mills". Particularly cited was the state's specting and investigating between 350 to 400 "Medicaid mills" in the city.

A shared-health facility—is a building housing several doctors who lease snace from backers system. nor the state currently had the capacity backup system.

Bernard Luger, director of the H.E.W. regional audit bureau, refused to com-ment on the findings of the audit.

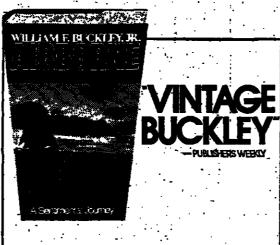

The report by the Legislature's Temporary Commission on Management and Productivity said, on the other hand, that the state, which through the Department of Health's Office of New York City Afficience of the Productivity of the City Afficience of the Productivity of fairs recently began its own round of in-spections and actions against doctors, should not interfere with the city enforce-ment effort conducted by the city's Bureau of Health Care Services.

An early draft of the study described Who is to Blame?

Specifics of the Federal study, currently in draft form and awaiting comments by the State Health Department, were sketchy. City officials maintained that it labeled the State Health Department as the major impediment in devaloring and "frustration."

An early graft of the study described a situation of constant fending between the offices and likened the state to "a stern parent" and the city to a "rebellious child." It termed the state role "onerous" and the city response as "anger" and "frustration."

The New Hork Times

The Argo Merchant Disaster

The "biggest oil spill disaster on the American coast in our history" is the way Russell E. Train, administrator of the Environmental Protection Agency, has characterized the wreck of the tanker Argo Merchant on the Nantucket shoals. Mr. Train, who is not given to overstatement, was describing the impact of this wholly preventable catastrophe that threatens incalculable damage to the great fisheries on the Georges Bank and to New England's

'As in the case of the famous Santa Barbara and Torrey Canyon spills of the 1960's, this one, too, may serve a useful purpose if it galvanizes the public - and governmental authority-into action that will reduce the likelihood of such disasters in the years ahead. Unless strong action is taken, accidents are not only probable; they are virtually certain.

The Georges Bank, besides being one of the world's most important fishing grounds, is also the site of prospective leases on the Outer Continental Shelf, from which it is estimated that some 180,000 barrels of oil a day will be extracted at maximum production. Under present plans, this oil is to be carried by tanker from the offshore wells-thus greatly increasing the tanker traffic in the area and, with it, the probability of similar wrecks

The far safer method of removing the oil would be by pipeline running ashore from the well heads. It is not

The air bag as a safety device in automobiles posed a

problem for Secretary of Transportation William T. Cole-

man Jr. His careful study of the evidence showed that

the air bag is technologically feasible, can be massed-

produced at a reasonable cost and, if used in all cars,

would save an estimated 12,000 lives a year and prevent

or reduce the severity of 100,000 injuries. It is this same

evidence that has prompted safety and consumer groups

to press for compulsory installation of air bags in all

But Secretary Coleman also knew that imposition of

voluntary agreement by which at least two of them will

produce 250,000 air bag-equipped cars annually in the

1979 and 1980 model years. The hope is that the gradual

introduction of the air bags on a limited basis will

Secretary Coleman, however, was ultra-cautious, Unlike

seat belts or safety helmets that physically restrain

the driver, the air bag is tucked away out of sight. The

driver is unaware of its existence except in the emer-

gency circumstance when it is needed. Moreover, as

Secretary Coleman recognizes, repeated testing has shown

there is no basis for fear that the bags might inflate

inadvertently and cause a dangerous loss of control.

device that would save thousands of lives and prevent

many serious injuries ought to be deferred while it re-

ceives still another limited test and, for most drivers, be

Never have an ideal and a reality been farther apart

than in this country's new towns program. The premise

that rational, planned development makes more sense

than wasteful, chaotic sprawl-in terms of money, effi-

ciency, energy and community and natural resources-

remains sound. No one disputes the desirability, and

even the necessity, for some order and amenity in this

country's growth and land-use patterns. But never has

That failure must be read as a lesson, not as finis to

the idea. The default of seven of 13 Federally-backed

new towns is the result of both predictable and unpre-

The crucial factor was timing. The Federal new-com-

munities program got under way just as the bottom fell

out of the real estate market. New towns were not the

only real estate casualties of the recession; the same

conditions brought down the New York State Urban

Development Corporation, the real estate investment

trusts backed so heavily by banks, and almost all other

construction activity. Housing production and housing

purchasing power were virtually destroyed by a combi-

nation of economic downturn, appallingly inflated con-

debacle of the new towns. The Federal program itself

was a model of vacillation and instability, with revolv-

ing-door administrators, changing directives, diminishing

commitment and bureaucratic delays. Compounding the

economic crisis, this program could not have been more

Even so, Federal participation was a belated recogni-

tion of the fact that the real estate business, which deals

in fast capital turnover, could never undertake long-term.

large-scale community investment without help. Now, in

a kind of self-fulfilling disaster, builders cannot pay back

the loans the Government guaranteed, and the towns

cannot be carried far enough to begin to yield a return.

towns, totally financed by the Government, which con-

sidered their construction a top national priority for the

future, have had 25 years to mature. They are now im-

But even without this fatal one-two punch of bad

economics and bad administration, the American pro-

gram had serious strikes against it. In Europe, new-

towns legislation also controls the siting of commercial

and industrial facilities. In the United States, the

struggling new towns have been battered by the specu-

pressively, even spectacularly, profitable.

There is a lesson in that failure, too. Britain's new

But still other factors complicated that highly visible

destructive if it had been calculated sabotage.

a program of such obvious virtues failed so miserably.

In view of these facts, it is questionable whether a

The affair of the Argo Merchant raises several other questions that need thorough study before offshore drilling in the Atlantic becomes a fixed procedure. The ship. which had an appalling history of previous accidents, was so far off course that knowing observers in the area wonder whether its skipper was not deliberately taking a short cut in order to trim costs, a practice they suggest is not uncommon. If so, why has it been allowed? It is fair to ask, too, whether the Coast Guard is as powerless as it appears to be to contain oil spilled in the rough Atlantic. If it is, that is additional testimony against offshore drilling in those waters. In addition, the shin's record raises serious questions about the policing of all tanker operations, apart from the offshore drilling issue.

The fishermen of the Georges Bank will be fortunate if the spill from the Argo Merchant does not do longterm damage to the spawning grounds on which their industry depends. The people of the coastal area will be fortunate if a sudden shift in the tides does not bring disaster to their great resorts. Along the rest of the Atlantic Coast, residents will be fortunate if the lessons of the Argo Merchant are not lost on those who have the responsibility of deciding whether or not offshore oil is

lative competition of shopping and commercial centers and other new housing that capitalized parasitically on

All this leads to one conclusion: It is time for this country to decide whether it wants its new-communities programs to work or not. The record makes it seem that almost everything possible has been done or accidents of the economy.

The studies of what has gone wrong that are being prepared now by public and private agencies will not substitute for the realistic coordination of all controlling factors and an equally realistic commitment to success. The present program has built in a kind of failure that

the air bag might evoke hostile public reaction. Rather than risk such resistance, the Secretary has cautiously requested the automobile companies to enter into a

The Appeals Court ruling exempting policemen from the municipal pay freeze is a Pyrrhic victory which a large number of employed policemen may soon regret. In addition to adding a \$19.5 million burden to the already strained budget, the ruling threatens to undermine delicate understandings and negotiations with other municipal employees that are essential components of New York's long-term effort to regain a viable, balanced budget. In order to preserve his budget and his credibility with other municipal unions, the Mayor

 The city could squeeze the lost \$19.5 million from the Police Department in other ways, by refusing to grant new cost-of-living adjustments or through addi-

Almost as disturbing as the ruling itself is a report that the court withheld its decision for weeks at the request of the city and the Patrolmen's Benevolent Association, who were attempting to negotiate a solution. It is not surprising that a settlement was not achieved under such circumstances, with the union leaders aware all along that they had this ace up their sleeves.

Unfortunate as the court's decision is, it is better that it is now out in the open rather than remaining a hidden factor in the negotiations. In the end, it cannot change the fiscal realities which the policemen still must accept and adjust to, as most of their fellow municipal employees already have done.

Crown Heights Divided?

markably little dispute over proposed lines for the new, Charter-mandated coterminous service districts which are designed to give local communities throughout the city greater control over municipal services and policies affecting their neighborhoods.

Much of the credit is due the City Planning Commission, which drew the new lines with painstaking care to insure that they conformed as far as possible to historic neighborhoods, as called for in last year's Charter revision. Most of the modifications by the Mayor of the original plan have been in the direction of strengthening this commitment to traditional neighborhoods as

An effort to upset this prudent policy has been launched, however, by Hasidic Jews in Brooklyn who are demanding that the Crown Heights District, which remains virtually intact under the plan, be divided in two in order to give them a larger voice in the southern half where many of them live. The demand led to an angry confrontation between the Hasidim and blacks, who are a majority in both halves of the district, at a recent Board of Estimate hearing.

any effort to divide the city along racial or other narrow so far has been carefully avoided. If New York is to surmust learn to live and work together in their local ing Crown Heights would be good neither for Crown Heights nor for New York

some form of encoded card or ticket and a readout device located in the turnstile which interprets the encoded information. A proposal for evaluating an electronic fare collection technique was under consideration by the M.T.A. about a year ago, but no action has subsequently been taken on this mat-

In the present context, it is important to understand that electronic fare collection enables easy determination to be made of the number of fares collected from special groups such as senior citizens and schoolchildren from which special subsidies are available from the Federal Government. These subsidies can only be paid on the basis of accurate and validated data.

Electronic fare collection simplifies the mechanics of transfer ticketing and multi-ride or combination discounting. Unlike tokens and magnetically encoded cards, the electronically encoded tickets cannot be counterfeited or altered.

The cost of fare collection is thought to be about 30 cents for each dollar of revenue. The proposed system would reduce this cost to 5 cents. It is estimated that this reduction, together with the savings in theft of services and the elimination of the need for pass gates to accommodate

Of Publishing and Profits

Saul Bellow's contention in his

DONALD C. JENKINS Bay Shore, L.L., Dec. 14, 1976

To the Editor:

Since the Metropolitan Transportation Authority is considering the discontinuation of various runs and services to save manpower, machinery, power costs and other expenses, I'd like to suggest that they shut off the heat on the underground portion of

Many thousands of kilowatts are consumed hourly by subway trains-probably more by heaters running full blast behind passengers' legs than by traction motors. Since the passengers in question are fully clothed for outside weather, cutting the heat might well be considered a health move as well as a boon to the subway's economic situation.

Anyone who has ever bothered to check the wattage of a toaster or iron or space heater knows that the device which uses electricity to generate heat is probably the most inefficient and gluttonous consumer of costly power. EDWARD F. MCDERMOTT

New York, Dec. 16, 1976

Humane Penalties

To the Editor:

Robert C. Boardman, in his Dec. 9 letter, "complains" satirically or ironically that our manner of putting prisoners to death is too "humane." But surely our executions are clear evidence that brute vengeance is involved; nobody, so far as I know, has tried simply to give the prisoner a drug that would put him or her to sleep and bring death painlessly. Obviously, that would be the easy way

EDWIN KENNEBECK New York, Dec. 9, 1976

Prisoners in India To the Editor:

The Nov. 29 letter by James P. Harrison of Amnesty International, New York, makes statements which are not substantiated by the most up-to-date research from the London headquarters of Amnesty International, according to that organization's letter to me of Nov. 29 from its New York office. This research, as summarized in "The Amnesty International Report 1975-1976" (pages 127-132 concern India) makes no reference whatsoever to torture and offers no estimate of the numbers of political prisoners in all of India. Mr. Harrison's letter states that "there are numerous documented reports of torture" and that "as many as 75,000 political opponents of Indira

Gandhi are still in jail . . . " RICHARD POST Quogue, L.L. Dec. 14, 1976

Plastic Litter and the Environment

To the Editor:

Your Nov. 26 editorial "Plastic Litter" includes several misstatements and erroneous conclusions regarding the prospective environmental impact of the new plastic soft drink containers, and so does a disservice to those wishing to understand this complex

For example, you quote the Food and Drug Administration as saying that "plastic containers would cause even more solid waste pollution than glass containers." To the contrary, the September 1976 Environmental Impact Statement of that agency states firmly that "there is no confirming evidence that plastic beverage containers will be more or less of a litter problem than other throw-aways."

In fact, the litter potential of these new packages is negligible. Beverage-related items found in litter are almost always single-service containers used and discarded away from home. The plastic bottles being introduced come in one quart and larger multiple serving sizes intended primarily for in-home use. The new containers will for the most part replace other types of nonrefiliable containers of similar size already in use.

In addition, the F.D.A.'s En mental Impact Statement conthat plastic containers use less energy than any other form of refillable container, and that i larger sizes they are competitive refillable glass containers in th spect as well.

Our concern here goes beyon need to repudiate your erroned tack upon our industry. As the w leading packaging manufacturer Continental Group is vitally conc with the behavioral problems cause people to litter and the fundamental problem of reconvaluable resources from the ns. solid waste stream, of which bev: containers are a minor but 1 fraction.

We will not solve such proble: legislating a mandatory return t archaic, insanitary, and costly me of the past such as deposit by We believe the most sensible res to these problems lies in closio. solid waste loop through recyclin tems and by community program signed to discourage the person. is thoughtless enough to litter. S. BRUCE SMA

President and Chief Operating C. The Continental Grou New York, Dec. 9,

. .

. . .

We refer Mr. Smart to the folk passages in the F.D.A.'s Septi 1976 Environmental Impact ment: "... to the extent this filiable bottles are replaced conventional plastic nonrefiliables will be some increase in environm pollution" (page 56); "Approv plastic bottles would obvious at variance with the objective of legislation [the Oregon bottle which is primarily intended to .! littering and the solid waste. (page 67); "Plastic bottles on CI lakes and rivers might represed even greater adverse environn impact" [than other throws (page 73). Quotations to the sai similar effect may be found on 84, 85, 86, 89 and 90.—Editor,

realized many of the dreams along the way, and, I hope, in the process have helped in some small way to improve for all the order of life in our country.

I have been luckier than most who will come here, and I have known a more varied career than many will ever experience. I have had the chance to serve with the best blue-ribbon talents of this Republican Administration, and at a time when they were performing at their best.

In turn, I have served as assistant to George Bush when he was Congressman from Texas, United States Amhassador to the United Nations. and chairman of the Republican National Committee. Under President Ford's Administration. I served as assistant to Dean Burch as counselor to the President, to Donald Rumsfeld as assistant to the President, to Richard Cheney as assistant to the President.

My good fortune was to serve with men of high quality-unswerving and untiring in their diligence, yet each imposing honesty as an overlay to any action. Each of them inculcated in me a burning desire to succeed, but never for the sake of expediency. They asked for my judgments, for my noes when I thought I was right, rather than the ever-ready veses with always seems awash.

I often long for the illusion I came here following. It has gradually dis-

appeared for me over the years, but I still catch enough of an occasional glimmer to spur me on. I am much richer in experience, if somehow thinner in spirit.

I have observed men at the highest levels soar beyond their own expectations and, in turn, I have known of some who grovel so as to sicken even the toughest among us.

I have known power to corrupt, and have seen it inspire. I have known heady victories, and I have been stung by cutting defeats.

Still, having seen all this, I opt for more. Quit politics, some say; retire to the corporate business life and triple your income. To do so would be to betray myself. Retire to what? When you have been in the thick of the action, the sidelines, no matter what their allure, seem an impossible choice.

So here's to you-Jody and Hamilton and Jack and Greg-you and all the other new boys in town. All of you who are about to plunge into what Teddy Roosevelt so aptly dubbed "the arena"-enjoy it to the hilt-these may be the best years of your life, and maybe from time to time think about these reflections of one who shared the common condition.

Peter Roussel was, most recently, assistant to James A. Baker 3d, campaign director of the President Ford Com-

Watch What We Do

By William Safire

. WASHINGTON, Dec. 22-The googoos are in an uproar about Jimmv Carter's cunning selection of Griffin Bell to be Attorney General. They accuse Mr. Carter's friend of being a liar, a bigot, a betrayal, and a throwback to those days when the Department of Justice was under the thumb of the White House. Let's take those charges in order:

1. An Attorney General-designate should not shade the truth in his first public appearance. The goo-goos have

a point here. When Mr. Bell claimed he bad not

"endorsed" Harrold Carswell for the Supreme Court, he was being deceptive. Worse, Mr. Carter's choice for chief law-enforcement officer tried to wriggle off the hook by claiming he had not known of Judge Carswell's early speeches. It can be easily shown that he wrote his endorsement nearly a week after Mr. Carswell's racist quotations were widely publicized.

Mr. Bell cannot perjure himself be-fore the Senate. He will have to change his story, apologize for his attempt at deception-call it a lapse of memory and he will be forgiven.

2. A public official's membership in a private club that discriminates on the basis of race or religion condones bigotry. Score another point for the goo-goos. Mr. Carter might have been able to defend Mr. Bell's clubbiness on the basis of a private individual's freedom to choose his friends, but he would have had trouble with Mr. Bell's lilywhite membership all during the years he was a Federal judge deciding civil rights cases.

Rather than fight this losing battle, Mr. Bell has just said he will resign his membership in white-only, no-Jewsallowed organizations. His original position—that he would ask for a leave of absence so he could rejoin later without losing his \$10,000 in initiation fees-was untenable, as it would have put the seal of Carter Administration approval on discrimination.

3. Going along with Senator James Eastland's choice for Attorney General is a Carter betrayal of black support.

Now the goo-goos go too far. Why is paying off Jim Eastland for his support any different from paying off black groups for their support? The blacks have received their window dressing already-Andrew Young will enjoy serving at the U.N. and Patricia Harris cannot get into trouble learning about housing—so why not give one plum to the anti-integration Southerners who also rallied to the Carter cause? Fair's fair, if you are a popularist unburdened by principles.

4. The appointment of a political

crony and fund-raiser as Attorney General, rather than an independent symbol of integrity, is a throwback and invites toleration of abuses of White House power that took place under Mitchell, Clark, Katzenbach and Robert Kennedy

.The goo-goos just do not understand the name of the game. An "independent" Justice Department is a dagger pointed at the heart of executive authority.

Consider our last two Attorneys General, heavily bedecked in post-Watergate rectitude. William Saxbe's independence was a function of being indiscreet, confirmable, and intellectually out to lunch.

Edward Levi, on the other hand, was high-minded and truly independent. He did not risk anything that could be criticized as helping President Ford. Accordingly, when a false accusation was made against the President during the election campaign, the Department of Justice did not routinely investigate the matter, letting possible prosected in be decided by normal standards.

On the contrary, Mr. Levi passed the false charge along to the Special Prosecutor, whom he had kept in business purely to insulate the Attorney General from having to make difficult judgment calls on controversial charges. This special treatment guaranteed a news play that made Mr. Ford look like a soon-to-be-indicted criminal for over a month during the campaign, and had much to do with his loss. The defeated President is left to finger old editorials praising his choice of an "independent" Attorney General.

The next President wants an Attorney General who is on his side. Not one to obstruct justice, but one who is "compatible"—who will rarely bring pressure on the White House for civil-rights policies that upset the Carter middle-American Southern constituency, and will display no excess of zeal in the investigation of David Rabhan's Carter connection, Tip O'Neill's Korean connection, and other potential Democratic embarrassments.

By that standard, the tolling of Griffin Bell makes excellent political sense. The outrage of the goo-goos will only endear the new Administration to center-right Democrats who nominated Jimmy Carter in the first place.

Mr. Bell's nomination rates a spirited (if left-handed) defense in this space because it dashes the ice water of political reality in the face of dreamers, and reminds us all that the days of the gentle caretaker will soon be gone. The vaunted "selection process" never applied to the positions that counted most: Like President Kennedy and Nixon, Mr. Carter knows exactly where the power is, and wants a man in control of criminal prosecutions who has long been personally loyal to him.

Cutting African Births

By James H. Scheuer

WASHINGTON - Once again, the

burden of a national election has passed

over the country. The results are now

felt everywhere. By glimpses, we see

the dreams of the winners beginning

to take on the hard test of reality, and

the defeated dismissed from service

almost overnight. For, in the ebb and

flow of Washington power struggles,

there is barely room for success, and

I envy the newcomers. In the giddi-

ness of their spirit, I see myself as I

was when I first came to this city

eight years ago, when the country's

leadership was again being renewed.

Into the process this time are stream-

ing thousands of young men and wom-

en who are, as I was then, filled with

idealism, motivations and ambitions,

many of which are not fully understood.

people to political Mecca? If it be

idealism, at what point does one finally

and reluctantly determine that idealism

is virtually meaningless in the maw of

Washington power politics? If it be

raw ambition, at what point does one

decide to give in under the relentless

crush of competition and say: "It's

not worth it. There is something else

I would rather be doing with my life."

Over and over in the mind, that

venerable truism surfaces: "What price

glory?" I have asked myself these

questions for the last few years. No

answer I have found has been compel-

ling enough to make me want to

I was a young man drawn to the

political life here with the same hopes

and dreams of glory we now see re-

flected in the faces of those pouring

into town daily with the new regime.

am still a voung man (35) but.-as

someone once observed, "Those eight

years in Washington have made you

an old man." Perhaps so, but I have

chuck it all.

What has drawn all these young

certainly none for failure.

WASHINGTON—Recently, a number of enlightened voices have urged bigger food programs for underdeveloped countries in order to avoid great suffering. This is the only decent thing to do, and of course food aid is consistent with our finest traditions. However, unless the character of our foreign-aid programs is recast, putting more emphasis on population growth rate reduction, any suffering we prevent today will be compounded many times a generation hence.

I just completed a trip to Africa, under State Department auspices, to study population growth problems and family-planning progress in Kenya, Tanzania, Zaire, Nigeria, Ghana, Ivory Coast and Senegal. Most of sub-Saharan Africa has a population growth rate of about 3 percent. In approximately twenty years, each country's population will have doubled.

It is highly unlikely that within twenty years food production can be doubled. In most countries, food is desperately inadequate for people now alive; it needs doubling for them. Then double it again for the twice-as-large population pouring forth? It probably can't be done, even with vast infusions of capital from developed countries, were they willing to contribute at thisenormously increased level.

Resources divided by people equals individual standards of living. Resources include available health services, educational opportunities and other human services affecting the quality of individual life.

Even if all the bravely progressing African nations did accomplish the well-nigh impossible and double these services over the next two decades. they would still be providing only the miserably inadequate current level of services, because all of the herculean efforts would merely have kept up with relentless population growth, drowning all development in a flood of people.

The Congress has appropriated about 15 times more funds for mortality reduction (food and nutrition programs, curative and preventive health services, etc.) than for familyplanning and other population-growthslowing programs.

We are destroying nature's balance. Earlier, population was effectively curbed through 50 percent infant mortality, frequent childbirth-related deaths, and innumerable fatal diseases. Mercifully, we are participating in saving lives. But we are not assisting in creating a more compassionate balancing factor: reduction of births. We are allowing a time bomb to tick while we pile on food to hide it.

We must do what many a thoughtful leader in the developing world wants: aid in bringing a better life to all Africans, while at the same time helping plan life for those who will live in the future. We can do this with

a rationally balanced platter of aid. Food, health, housing and other programs for families should have population-planning or child-spacing built in. We could hold to the current level of Agency for International Development dollars going to Africa for development while greatly increasing contribution to help African planners provide maternal and child-health programs with family-planning components to halt runaway birth rates. In every country visited, virtually

all health, medical and demographic professionals at planning levels, some ministers and high public officials, plus several progressive presidents, understand that their nations already have more children than they can provide for, even in a rural subsistence economy; that the problem worsens as people move to the city into a money economy; and that a significant percentage of African women are ready for help in child-spacing despite lingering tribal, cultural and religious traditions encouraging endless childbearing. There is a sophisticated awareness of the dangers of runaway population growth, and significant efforts to slow it.

We must greatly increase United States contributions to governments. private population groups, Roman Catholic and Protestant missionary services long involved in this workusually as part of maternal and childhealth programs, sometimes as community education from highest to lowest levels; and to institutes, foundations, associations and the United Nations Fund for Population Activities.

Failure to balance our humanitarian. death-reducing programs with muchdesired, voluntary birth-reducing programs will be setting the stage for awesome tragedy when the need for food and human services becomes impossible for the African continent and the caring world to meet. We would be playing triage on an inhuman, morally outrageous scale.

James H; Scheuer, a Democrat, represents New York's 11th District in

May joy and peace brighten all your days.

in have not lost hope," Mr. Carter said in a news conference at the Passaic County-jail, explaining that he felt there were several issues to appeal. "But hope is all we can have. We don't have our free-doine and make " doin any more."

For his part, Mr. Artis said: "It's like walking in a tunnel that keeps going around and around in circles. You think

denim pants and shirts that are jail garb, first trial, to help concoct a phony alibi spoke to reporters in the recreation room for his client. Mr. Brown, who testified for the defense, vigorously denied the Passaic County Courthouse here, where charge.

the assistant prosecutor who helped try the case with Prosecutor Burrell I. Hum-phreys. "They are not presumed innocent anymore, so it doesn't make any sense for them to be out on bail."

For Mr. Carter and Mr. Artis, the return to the Passaic jail—where they now share a cell—came nine years after their first convictions of the triple murders and after nine months of freedom. They had been out on bail since last spring, when the State Supreme Court unanimnously overturned their original convictions on the ground that the prosecution had withheld evidence that was beneficial to the defense.

Mr. Carter, a 39-year-old former mid-dleweight boxer, said that he would fight for a third trial "no matter how long it may take, no matter how hard it may be." He said he thought Judge Leopizzi had been fair, although he termed the second trial "not a retrial but a name "" the New Jersey chapter of Sigma Delta Chi, a journalism organization, today protested to the New Jersey State Supported to the New trial "not a retrial but a rerun." He noted, however, that the most dejectionable ele-ment of the prosecution's case—the racial revenge motive-"didn't enter the case 10 years ago, when the country was going through racial strife."

The Prosecutor contended that Mr. Carter and Mr. Artis had killed three whites at the Lafayette Grill in revenge for the killing six hours earlier of a black avern owner by a white man.

New Investigation Considered

In his summation, Mr. Humphreys said that it was at the home of Edward Rawls, he stepson of the murdered black man, hat the defendants had changed their lothes and dropped off their guns on he morning of the murders. There was no testimony or evidence to support that contention.

Today Mr. Humphreys said that the bassibility of calling Mr. Rawls before grand jury was "under active considera-

tion" by his office, The Prosecutor also. In his letter to the court, Mr. Fisher said he might call before the grand jury said: "What Judge Leopizzi did represents: PATERSON, N.J. Dec. 22—Rubin (Hurricane) Cartet and John Artis said today identified the defendants as understigated they were "shocked" by last night's guilty verdict in their second trial on charges of murdering three people at a local bar in 1966.

In the most recent trial, renownced his recantation as a lie and rendentified Mr. Carter and Mr. Artis. He testified to having been offered bribes or inducements to recant those who were involved in obtaining the recantation of Alfred P. Bello. Mr. Bello press, I know of nothing in the court rules identified the defendants as the gunmen in the 1967 shal, then recanted and then,
